manifesto

O*nce upon a time* — when we were kids, whenever our parents dropped us off somewhere like school, our grandparents' house for the weekend or even summer camp, they always gave us a hug and a kiss and told us to “be good!” as they waved goodbye.

as kids — we were very literal and knew this meant...don't cut your sister's hair, don't glue yourself to the wall, don't go running off into the woods with nothing but your underwear and a toothbrush. At the time, it was mostly about good behavior.

now as parents — we realize there is a whole other level of meaning when we kiss them goodbye and tell them to be good. We know we're really telling them to be good people. Do the right thing. Make us proud. Be the kind of people we hope to be.

as OEUF — we have the chance to elevate this notion once again and be *a good company*.

when we say
be good — we mean :

Be good designers.

Simple, clean, intuitive products that are easy and safe to use; made with quality craftsmanship that will last from generation to generation; designed with a European sensibility that is fun and stylish, reflecting the needs and lifestyle of today's families.

Be good to the planet.

Use natural, renewable, recyclable materials that emphasize conservation and lead to environmentally sound products. Employ eco-conscious manufacturing processes that promote sustainability.

Be good people.

Respect the people who work with us and treat them fairly whether employees, artisans, retailers or consumers. Provide a safe and supportive working environment that allows working families to live and thrive in the United States, Europe and abroad. Honor cultural traditions, diversity and local values. Pay people living wages that enable them to live healthy and fulfilling lives and send their own children to school.

Be good is not just something we say, it's something we mean. As parents, we want our children to inherit a world that is better than we found it. As Oeuf, we have the ability to make that happen.

safe and eco-friendly

All Oeuf's furniture is made of sustainable, premium materials and is ethically produced in the small European country of Latvia.

Forests are abundant and cover over 70% of Latvia, which has a proud tradition of woodworking. As a member of the European Union, Latvia also has strong standards and regulations relating to labor, safety, quality, and the environment.

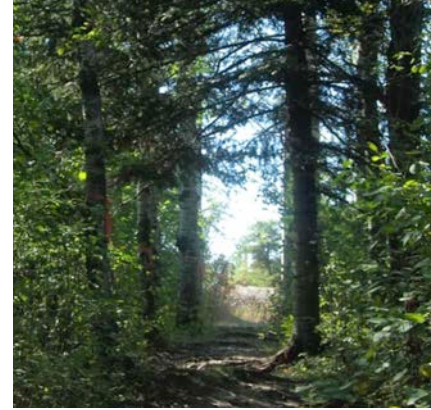

Forest Stewardship Council Certified

All Oeuf furniture is produced in FSC certified facilities. Oeuf wholeheartedly believes in the FSC mission; to promote environmentally sound, socially beneficial, and economically prosperous management of the world's forests with a vision of meeting the current needs for forest products without compromising the health of the world's forests for future generations.

Waste Recycling

All waste possible is recycled through licensed facilities, and wood waste is reprocessed at the factory into briquettes, which are then used to heat the factory during Latvia's snowy winters. In addition, our engineered eco-MDF panels are made from recovered wood fibers.

CARB II

To protect our children and workers alike, we use non-toxic, water-based finishes on all of our products, and all of our materials (solid wood, CARB II compliant Baltic birch plywood and eco-MDF) meet the stringent European E1, Californian CARB II, and US Federal emissions standards.

Greenguard Gold Certified

Oeuf is committed to providing you and your family only healthy and safe products, which is why we choose to participate in the Greenguard Gold Certification program. Through rigorous, third-party testing for over 10,000 chemicals and Volatile Organic Compounds (VOC) you can be confident that your indoor air quality will remain safe for sensitive children. Our products meet the program's strict emissions criteria to create a healthier home for your family to sleep, grow, and play.

We are Oeuf.

**French for egg; a symbol of simple,
clean, intuitive design.**

Sophie Demenge and Michael Ryan founded Oeuf after the birth of their first child in 2002. They'd joined a new generation of design-conscious and environmentally aware parents, and sought to create smarter solutions for the modern nursery that could offer value to growing families.

Rather than producing a multitude of products, they narrowed to a few essential pieces and made them practical, sturdy and stylish.

Oeuf remains true to that approach to this day.

We manufacture in Europe using non-toxic and sustainable materials, just like we've always done.

We are ever mindful of our impact on the environment and the communities we serve.

And we strive to reduce unnecessary consumption by offering high-quality, thoughtfully designed products that represent a true value for modern customers.
