IGLOO SPORTSMAN COOLER

Flexible rubber T-Grip latches are recessed when closed to eliminate snagged lines and gear

RapidFlo drain system includes 1.75-inch tethered plug

Keep your fish and drinks ice-cold for days with the Igloo Sportsman cooler. The Sportsman is designed for serious duty out on the water, with a gasketed lid that includes a work surface and ruler, and non-skid feet that raise the bottom of the cooler off the deck for easy washdown. T-grip handles are designed to recess when closed so they don't snag fishing lines and an extra-large drain plug makes clean out easy. All Sportsman coolers are made in the USA. igloosportsman.com
