## Igloo Party Bar Cooler

Warm drinks, dead party. Make sure that's not the case with Igloo's Party Bar Cooler. Fully insulated as to keep contents cold for hours if not borderline days, the Party Bar features a 118 litre capacity — enough for up to 212 cans, for instance — and rolls around on locking casters for convenience (though the wheeled base is removable for use as a traditional ice chest). Plenty of other unique niceties distinguish this cooler from most, including a LiddUp LED light system that helps thirsty guests rapidly focus in on their next drink at night, removable dividers to keep various drink types organized, a bottle opener with catch bin on the front, plus a threaded drain plug that simplifies the post-party cleanup.
