- Coconut vinegar
- Coconut oil
- Grapeseed oil or Olive oil is also fine
- Tamari
- Coconut aminos
- Dijon mustard, 1 cup
- Xylitol or Stevia
- Chile paste

## SHOPPING NOTES:

Don't like a particular veggie or fruit?

You can substitute with another phase-specific item.

You might want to pick up extra veggies for snacking.

We've given minimum ingredient quantities to make a week's worth of recipes (you'll often have some leftovers). When no quantity is listed, assume that a standard container will contain plenty of the ingredient.

For a few items, like almond butter, you only need a couple of tablespoons. You could substitute a different snack, or choose a different nut butter.

For stevia or xylitol. You don't have to buy both – you can choose one or the other and substitute in recipes. 1 tsp of xylitol is equivalent to about 1/8 tsp. of stevia.
