THIS RENTAL PACKAGE INCLUDES:

2 - Gemini Intercom Headsets
1 - Gemini Control Box
1 - RE-18 Cable (connects the control box to the scanner)
1 - Extra 9-volt Battery (powers the control Box)

INSTRUCTIONS:

1. Plug each headset into the top of the control box.
2. Plug one end of the RE-18 cable into the front of the Control Box where it is labeled “SCANNER.”
3. Plug the other end of the RE-18 cable in the audio jack of the scanner.
4. Power on the Control Box using the switch on the front (turn the power off when it is not in use).
5. Headsets are worn with the Velcro strap on the top of the head with the microphone boom in front.
6. Position the microphone within one inch of your mouth.
7. Push the button on the right ear cup to speak to the other connected intercom headset(s).
8. Adjust the headset volume with the knob on the left ear cup. You can balance the scanner volume with your speaking volume using the scanner’s volume control.

STANDARD CONDITIONS OF RENTAL

All rental equipment must be returned to RACING ELECTRONICS within one hour after the completion of the race. In the event that you fail to return the equipment trackside, you have 72 hours to ship it to our company headquarters (840 Derita Road, Concord, NC 28027). Failure to return will result in payment to RACING ELECTRONICS for the replacing the equipment.
