

JULIA MORI
Oakville, ON

ARTIST STATEMENT

The figurative landscape serves as a mirror of the inner human landscape. They create a narrative that is easily legible, allowing us to mobilize our own experiences to understand contemporary reality interwoven with our memories. My goal is to create a mood or an atmosphere. I work to achieve an unconventional use of paint and texture to create a surface tension which draws attention to the translucent and/or opaque areas of the painting. I like to think of the qualities of the movement and the character of paint, and shapes as masculine and feminine, much like music. From crescendo to lotto voce, together they can bring something very complete to the painting.
