### PRODUCT DESCRIPTION

#### Limesite™ Rotunda Coffee Table

The Rotunda table range is a sustainable 100% local & 81% recycled materials product range, which is the perfect modern industrial addition to any contemporary space. The tables function as great conversational pieces in their respective uses. Inspired by the unique, fluid aesthetic of the Wolkberg Dimensions finish and Limesite material, the pieces feature a combination of organic and robust forms which speak to the nature of the material.

The Rotunda coffee table features a round Limesite top, supported by a modern industrial half-sphere Limesite base.

*Disclaimer:*

*Colour variance is an inherent property of our products as they are handmade and colour may vary from product to product. The onus is on the client to confirm colours by looking at physical samples and completed projects. Custom colour development available on request. Please refer to the website for more information.*
