

**/// sidekick**  
Standard-duty back blade

*The Future of Snowplowing is Behind You*

**/// sidekick**

The Ebling **sidekick** is an efficient standard-duty pull plow used to clear snow from garage doors, parking spots, loading docks, circular drives and other areas that a front plow is not designed to efficiently handle.

- Designed for Pickup trucks, SUV's, Jeeps and most 4WD vehicles with a 2" receiver style trailer hitch
- The **sidekick** attachment system slides into the vehicles existing 2" receiver hitch and is supported by 2 additional ratchet style straps. It is fully adjustable to accommodate different vehicle heights
- 7 gauge Universal moldboard is easily adjusted from 7ft- 7.5ft- 8ft to accommodate different vehicle widths
- Self-contained hydraulic system is hard wired to the vehicles electrical system. It provides down pressure to the blade and is operated by a control box inside the vehicle
- The **sidekick** comes standard with a steel main cutting edge, poly wing cutting edges, a plow stand for storage, and a durable powder coat finish
- Weighs approximately 380lbs and is backed by a 1 year warranty
