Cre8tion™

Application Guide – Nail Art Effects

1. Apply a quality base coat like Cre8tion Base Gel.
2. Apply your favorite gel color that you would like to add the Cre8tion Nail Art Effect to.
3. Apply Top Coat – We recommend our smooth finish Cre8tion Non-Cleansing Top Gel for repeatable results.
4. Using a makeup sponge or silicon applicator, lightly dip into the pigment to pick up a small amount of the product. Remember, a little goes a long way.
5. Apply on to the cured top coat to reach desired effect. Usually 1-2 applications is enough.
6. Apply another layer of your favorite Top Coat and cure to seal the beautiful finish.
