

Easy Wood Crafting Guide

Step 1

Put an "X" on the front side of the pieces you will cover with paper.

Step 2

Put the "X" against the back side of the paper you will use and trace it.

Step 3

Paint, stain, or leave unfinished any areas not covered by paper.

Step 4

While the paint is drying, cut out your paper pieces.

Step 5

Apply Mod Podge or other glue to a piece with an "X" and cover with paper.

Step 6

Use a paper file to cut the edge of the paper flush with the wood to create a cute, perfect finish!

Step 7

Glue your layered pieces together, add any desired embellishments, and enjoy your masterpiece!

* If desired you can spray your project with a clear satin or matte cover to protect it and make it shine.
