

OXIDE

The Oxide Collection

An entire range inspired by the landscapes that change colors in seasons. The way clouds that race across the sky refashions each time and the leaves change colour according to time.

An effervescent gradient of blue and red pigmented feather cement wrapped around simple form depicting continuity in discontinuity to give an abstract landscape effect with a dash of structure.

MATERIAL SWATCHES

Leaf Foiling Red oxide

Grey and Blue Ombre with White Powder Coated Frame

Mint Green, White and Blue Oxide Combinaton

Maintenance of Wabi Sabi products:

Wabi Sabi embraces the poetry of weathered imperfection in granite dust, a material we developed from quarry waste, for its austere aesthetic and surprising lightness. With proper care, the wabi sabi lights could last for as long as 10 or more years. Here are a few tips on how to look after them:

- Avoid direct contact with water.
- Use a duster or damp cloth to clean.
- Handle with care. Could crack or break if dropped.
- Slight surface cracks may develop as a natural process of aging.
- Recommended for indoor & partially covered outdoor spaces (covered balcony, patio etc.)
- Color may fade over time if subjected to direct sunlight.
