

**WABI SABI**

## OORJAA

Oorjaa is an exploration of light that reflects our love of material, craftsmanship and sustainable living. Crafted with care, every lamp is alive with the inimitable individuality of the handmade. We subtract the superfluous, in both our aesthetic and our methods, evolving designs that are easy on the eye and the environment.

Oorjaa is a design studio that handcrafts sustainable materials into lamps for retail and custom lighting solutions for commissioned spaces and projects. Our roots lie in Bangalore's first handmade paper studio established in 1998 by Jenny Pinto. Today, in partnership with Radeesh Shetty of The Purple Turtles, we continue to be led by the idea of combining waste and natural fibre to create beautiful lights and are committed to our ethos of living lightly.

## WABI-SABI COLLECTION

Wabi Sabi embraces the poetry of weathered imperfection in faux concrete, a material we developed from waste, for its austere aestheticism and surprising lightness.

## Care Instructions:

Wabi Sabi embraces the poetry of weathered imperfection in granite dust, a material we developed from quarry waste, for its austere aesthetic and surprising lightness. Here are a few tips on how to look after them:

- Avoid direct contact with water.
- Use a duster or damp cloth to clean.
- Handle with care. Could crack or break if dropped.
- Slight surface cracks may develop as a natural process of aging.
- Recommended for indoor & partially covered outdoor spaces (covered balcony, patio etc.)
