Notes for Settings & Preferences

To view serial number and software revision press MRK and MUTE while powering on detector.

To restore MAX 360 to its original factory settings press and hold MRK and BRT while turning the power on. A **Restored** message will display, acknowledging the reset.

MAX 360's red light and speed camera DEFENDER Database is easily updated using our exclusive detector software tools found on our web site. Firmware, or the operating software for the detector, can also be updated using these tools.

To have access to these updates, please register your MAX 360 at www.EscortRadar.com, Once registered, you will receive email notifications or firmware. To handle your software and DEFENDER updates you need to connect MAX 360 to a computer via USB A / Mini B cable (not included).

For descriptions of features and functions available when connected to ESCORT Live, visit EscortRadar.com and download the MAX 360 Owner's Manual.
