Notes for Settings & Preferences
For descriptions of features and functions available when connected to ESCORT Live, visit EscortRadar.com and download the ESCORT iX Owner's Manual.

To view serial number and software revision press MRK and MUTE while powering on detector.

To restore ESCORT iX to its original factory Settings, press and hold SEN and BRT while turning the power on. A "Restored" message will display, acknowledging the reset.

Software Updates
ESCORT iX's red light and speed camera DEFENDER database is easily updated using our exclusive detector software tools found on our web site. Firmware, or the operating software for the detector, can also be updated using these tools.

In order to have access to these updates, please register your ESCORT iX at www. EscortRadar.com. Once registered, you will receive email notifications that updates are now available for your database or firmware. To handle your software and DEFENDER updates you need to connect your ESCORT iX to a computer first. You can connect ESCORT iX to a computer via USB A / Mini B cable (not included).

Your new detector comes with our latest **EZ Mag Mount**™. Simply tilt the display end of the detector up and slide it onto the mounting bracket. The magnetic mount holds the detector in place. To remove the detector from the mount, simply lift the display end of the detector and the detector releases from the mount.

Mounting Tips:

- Center of windshield between driver and passenger.
- Ensure clear view of road ahead and sky above.
- Avoid windshield wipers and heavily tinted areas.

To mount the detector in your vehicle:

1 Remove paper backing from EZ Mag Mount™ StickyCup.

2 Ensure the locking clamp is open.
