ESCORT iX Features

- The ESCORT iX delivers long range warning of a variety of threats including: Cell Phone Signal Scanners, Portable Cell Phone Jammer, Wireless Keyfobs and Remote Car Starters, Wireless Car Stereo Jammer, and more.

ESCORT Live

- Before downloading ESCORT Live, you need the ESCORT iX or a smartphone with Bluetooth access.
- Use the registration key that came with your ESCORT iX to register your device.

Phone

- Open the app on your smartphone.
- Follow the onscreen instructions to download ESCORT Live.
- Make sure the ESCORT iX is turned on and connected.

Bluetooth

- Open ESCORT Live on your smartphone.
- Tap the Bluetooth icon on the ESCORT iX display (if the Bluetooth icon doesn’t show up, click Settings, Bluetooth, turn Bluetooth on).
- To pair, enter the Bluetooth password on your phone.
- The Bluetooth icon will change to a connected icon.

APP

- When prompted, enter the username and password you created when registering your device.
- The Bluetooth icon on the ESCORT iX display will appear to confirm that it is paired to your device.

Installation

- To install the detector in your vehicle:
  - Place the detector in a mountable location.
  - Align the detector with the provided bracket. The magnetic mount holds the detector in place. 
  - To remove the detector, simply lift the display end of the detector slightly upward and engage with the flanged edge of the mounting bracket.
  - Ensure the locking clamp is open.
  - Insert the detector up and slide it onto the mounting bracket.
  - Tilt the display end of the detector slightly upward and engage with the flanged edge of the mounting bracket.
  - Ensure the locking clamp is secure.

- To adjust view, loosen thumb wheel and adjust the display angle:
  - To unlock, turn thumb wheel to unlock.
  - To lock, turn thumb wheel to secure.
  - Open the arm, pull through dimension, and press for 3 seconds to lock.
