

MAX 4 Firmware v 1.2 Release Notes

What's New

Cedar Electronics is announcing the release of version 1.2 firmware for the MAX 4. We have developed several key improvements in this release which should continue to improve your experience with your MAX 4.

Enhancements:

- Improved K-Band response time and Improved CAS performance

How to Get the Update

Downloads are available directly to your MAX 4. Manual downloads are available using a USB connection with your PC or Mac using our website ([Update Your Device \(escortradar.com\)](https://www.escortradar.com)). If connecting through Detector Tools Pro, the server will determine which version of firmware needs to be updated. If you have any questions, please contact our customer care team at 800-543-1608.

Keep the Feedback Coming

We want to keep hearing from you! If you have feedback or suggestions on how to make the MAX 4 even better, send an email to radarfeedback@cedarelectronics.com.
