Upon the initial power up, PASSPORT Max International will ask you to select your preferred language. After you reach 10 KPH, the display screen goes blank after 30 seconds. "Restored" message will display, acknowledging the reset.

Visit EscortRadar.com/manuals for the PASSPORT Max International Owner’s Manual. To restore PASSPORT Max International to your previous settings, press and hold the NEXT button, while turning on the power. A "Registered" message will display, acknowledging the reset.

NOTE: During Startup is the only time PASSPORT Max International is allowed to change settings. Once registered, you will receive email notifications that updates are now available for your location. Updates weekly for the latest radar and laser bands. To update, download and installer update tool to connect your PASSPORT Max International to a computer first. You can connect Max to a compatible USB host & cable.

NOTE: If auto power is on, the display screen goes blank after 30 seconds. Press SEN button to confirm your setting within a category of radar bands. The PASSPORT Max International will automatically sets radar bands for different market using your choice of language.
Congratulations

Max International Features

- Exclusive CrystalClear™Performance accurately calculates real threats present in your area and other detectors, providing more advanced warning when you need it.
- High-performance laser detection including English, Spanish, Chinese, Russian.
- High performance detection of latest radar threats including Strelka, Iskra and Multiscao.

PASSPORT Max International gives you:
- High-performance detection of latest radar threats including English, Spanish, Chinese, Russian.

PASSPORT Max International’s HD Performance accurately identifies real threats sooner than any other detector, providing more advanced warning when you need it.

PASSPORT Max International’s GPS location-based intelligence automatically locks out future alerts, preventing false alerts.

PASSPORT Max International’s voice and text alerts for multiple languages allows you to receive alerts in this preferred language. Press the device’s power button. You will hear a tone and see your selected language. Press the device’s power button again. Press VOL - or VOL + to select the type of language to be displayed. Once selected, press the device’s power button to confirm.

PASSPORT Max International should power on automatically. If not, press the device’s power button. Then press the 5-in-1 button once to select language. Press VOL - or VOL + until you see the language you want to use. Press the 5-in-1 button three times to lock out a false alert; press VOL - or VOL + twice while receiving a locked-out alert to unlock.

To mark a location for future alerts, press MRK once, then VOL + or VOL - to select the type of marker alert to unmark. To mark a location for future alerts, press MRK twice, then VOL + or VOL - to select the type of marker alert to unmark. To mark a location for future alerts, press MRK three times to lock out a false alert; press VOL - or VOL + twice while receiving a locked-out alert to unlock.

PASSPORT Max International should power on automatically. If not, press the device’s power button. Then press the 5-in-1 button once to select language. Press VOL - or VOL + until you see the language you want to use. Press the 5-in-1 button three times to lock out a false alert; press VOL - or VOL + twice while receiving a locked-out alert to unlock.

You’ve just purchased the first and only radar/laser detector to offer high-definition (HD) performance and accuracy—

PASSPORT Max International gives you:
- The ability to receive alerts on the 3.5-inch easy-to-read multi-color OLED display. Brilliant graphics illuminate the all new PASSPORT Max International’s HD Display. Quickly identify the type of threat at a glance.
- PASSPORT Max International’s GPS location-based intelligence automatically locks out future alerts, preventing false alerts.
