Notes for Settings & Preferences

For descriptions of features and functions visit EscortRadar.com and download the PASSPORT X50 Owner's Manual.

Restoring the Factory Default Settings:

To restore PASSPORT X50 to its original factory settings, press and hold **VOL** and **BRT** while powering on detector. **RESET** message will display, acknowledging the reset.

Service Procedure

If your X50 ever needs service, call us at 1-800-543-1608. We may be able to solve your problem over the phone. If the problem requires that you send your X50 to the factory for repair, we will provide you with a Service Order Number, which must be included on the outside of your shipping box.

Enclose the following information with your X50 and power cord:

- Your Service Order Number
- Your name and return address
- Your daytime telephone number
- A description of the problem you are experiencing

Quick Reference

Congratulations

PASSPORT
8500
X50

You've purchased the **all-new PASSPORT X50**, one of the most advanced high-performance radar and laser detectors on the market. The PASSPORT X50 provides long-range warning on all radar and laser bands.

Patented Mute and AutoMute circuits keep the PASSPORT X50 quiet in even the most populated areas.

Go to EscortRadar.com for the full featured PASSPORT X50 Owner's Manual.

Guía de Referencia Rápida Española traducida y manual con todas las funciones también son disponibles a www.EscortRadar.com

PASSPORT X50 Features

The PASSPORT X50 introduces the following state-of-the-art performance and features:

- Long-range K and Ka-band radar performance, including instant-on POP mode.
- Exclusive AutoSensitivity setting plus Highway and Auto No X settings intelligently filter out annoying false alarms.
- Exclusive ExpertMeter tracks and displays up to 4 radar signals simultaneously.
- Exclusive SpecDisplay provides actual numeric frequency for any radar signal and alert bar.
- Plus, it's compatible with ESCORT Live, our exclusive real-time ticket-protection network, which warns you of upcoming alerts received and reported by other users in the area, and gives you access to local speed limit data for over-speed alerts.*

*Requires Optional SmartCord Live and app subscription.

Compatible with
**ESCORT
((Live!))**

Installation

Windshield Mount

PASSPORT X50's EasyMount windshield bracket is designed for unobtrusive and hassle-free mounting.

Mounting Tips:

- Center of windshield between driver and passenger.
- Ensure clear view of road ahead.
- Avoid windshield wipers and heavily tinted areas.

PASSPORT X50 Mounting Location

WARNING: ESCORT cannot anticipate the many ways PASSPORT X50 can be mounted. It is important that you mount PASSPORT X50 where it will not impair your view nor present a hazard in case of an accident.

For optimum detection performance, we recommend the following:

- Using the Windshield Mount, mount your PASSPORT X50 level, and high enough on your front windshield to provide a clear view of the road from the front and rear.

- Mount PASSPORT X50 away from windshield wipers, other solid objects, and heavily tinted areas that might obstruct the radar antenna or laser lens.

1 Depress the adjustment/release button on the top of PASSPORT X50 (by the logo X50) and slide the EasyMount Bracket into the slot until it is locked into the position which best fits the angle of your windshield (there are four settings available). For extremely horizontal or extremely sloped windshields, the EasyMount Bracket can be bent.

To ensure that the suction cups adhere to the windshield firmly, be sure to keep both your windshield and the suction cups clean.

2 To adjust the PASSPORT X50 on your windshield, use the EasyMount adjustment button located on the top of the PASSPORT X50, and slide PASSPORT X50 forward or backward to obtain a level position.

When installed and adjusted properly, the back top edge of the PASSPORT X50 should rest solidly against your windshield.

User's Tip: You can leave the EasyMount bracket in place on your windshield, and easily remove PASSPORT X50 by pressing the adjustment button and sliding PASSPORT X50 off the mount. Again, be sure to position the bracket where it won't present a hazard in the event of an accident.

Additional mounts are available at EscortRadar.com

Controls & Features

Using PASSPORT X50

- 1** Plug small end of SmartCord into modular jack on PASSPORT X50 and large end of SmartCord into your car's lighter/accessory socket.
- 2** PASSPORT X50 should power on automatically. If not, press the device's power button.

NOTE: You can easily access and customize all of your Settings and Preferences by pressing and holding the VOL and BRT buttons. See Settings & Preferences for details.
