

Features

Congratulations! You have just purchased the most innovative and comprehensive radar/laser accessory available—SmartCord Live.

SmartCord Live uses Bluetooth® Smart Ready technology to communicate with your smartphone using our exclusive app. This combination of technologies gives you access to the most powerful driver alert network—ESCORT Live (subscription may apply). You can also easily access your detector's settings and manage alerts from your smartphone.

With ESCORT Live, you and your fellow drivers will instantly communicate all radar/laser encounters automatically, providing the most up-to-date and accurate protection on the road.

Imagine millions of other drivers helping you drive smarter!

You'll still enjoy all the state-of-the-art performance you've come to expect from your detector, but you'll also have access to:

- ESCORT Live—our exclusive real-time ticket protection network, which warns you of upcoming alerts received by other users in the area.
- Our DEFENDER Database, which warns you of verified speed traps, speed cameras, and red light cameras.

By using SmartCord Live to connect your detector to the ESCORT Live app, you will enjoy our most popular GPS-powered features, including speed-limit data for over-speed alerts, live traffic data for your current location, and TrueLock™ to help eliminate false alerts. You can also mark locations for future reference.

NOTE: ESCORT Live enabled features are only available while running the application.

Connections and Controls

• **Lighter Adapter** Connects to your vehicle's lighter/accessory socket

• **Power/Alert/Bluetooth Light**

- Blinking red: *Receiving an alert*
- Solid orange: *Receiving a locked-out alert*
- Solid green: *Power is ON*
- Solid blue: *Cord has Bluetooth connection and you are connected to the ESCORT Live network*

• **USB Jack**

Charges other devices simultaneously

• **Modular Connector**

Connects to your detector

• **High Speed Charge Selector Switch**

For high speed charging select the type of device that you are charging from the USB jack:

1. Android device
2. Apple device

• **Mute Button**

Push to mute an alert. Push three times to lock out or unlock a false alert. Push and hold to report an alert when connected to ESCORT Live.
