Congratulations! You have just purchased the most innovative and comprehensive radar/laser accessory available—SmartCord Live. SmartCord Live uses Bluetooth® Smart Ready technology to communicate with your smartphone using our exclusive app. This combination of technologies gives you access to the most powerful driver alert network—ESCORT Live (subscription may apply). You can also easily access your detector’s settings and manage alerts from your smartphone.

With ESCORT Live, you and your fellow drivers will instantly communicate all radar/laser encounters automatically, providing the most up-to-date and accurate protection on the road. Imagine millions of other drivers helping you drive smarter!

You’ll still enjoy all the state-of-the-art performance you’ve come to expect from your detector, but you’ll also have access to:

- ESCORT Live—our exclusive real-time ticket protection network, which warns you of upcoming alerts received by other users in the area.
- Our DEFENDER Database, which warns you of verified speed traps, speed cameras, and red light cameras.

By using SmartCord Live to connect your detector to the ESCORT Live app, you will enjoy our most popular GPS-powered features, including speed-limit data for over-speed alerts, live traffic data for your current location, and TrueLock™ to help eliminate false alerts. You can also mark locations for future reference.

NOTE: ESCORT Live enabled features are only available while running the application.

Before downloading ESCORT Live, you must first register your SmartCord Live using the serial number provided on the case.

2. Click the link for ESCORT Live Ready devices.
3. Follow the onscreen instructions to register your device.

Be sure to write down the username and password you create, as you will need this information to access ESCORT Live. You will also receive an e-mail with this information, once you have registered your device.

• ESCORT Live—our exclusive real-time ticket protection network, which warns you of upcoming alerts received by other users in the area.
• Our DEFENDER Database, which warns you of verified speed traps, speed cameras, and red light cameras.

Registration
Before downloading ESCORT Live, you must first register your SmartCord Live.
Visit EscortRadar.com, click Product Registration and follow the instructions for your type of smartphone to complete the product registration.

For iPhones:
1. Connect SmartCord Live to your detector and your vehicle’s lighter/accessory socket.
2. Open the App Store on your iPhone and search for ESCORT Live Radar.
3. Follow the onscreen instructions to download ESCORT Live Radar and then open the app.
4. When prompted, enter the username and password you created when registering your product at EscortRadar.com.
5. Press the Settings button then select Devices.
6. You should see SmartCord Live listed with Not Connected underneath. Press the SmartCord Live device entry and when prompted select Pair.
7. The SmartCord Live Power/Alert/Bluetooth Light will change from green to blue to confirm that it is paired to your iPhone.

For Android based smartphones:
1. Connect SmartCord Live to your detector and your vehicle’s lighter/accessory socket.
2. On your smartphone go to Bluetooth Settings and make sure that Bluetooth is ON.
3. Press Scan for devices and wait for the device list to populate; SmartCord Live should appear under Available devices.
4. Press the SmartCord Live device entry.
5. The SmartCord Live Power/Alert/Bluetooth Light will change from green to blue to confirm that it is paired to your smartphone.
7. Follow the onscreen instructions to download ESCORT Live Radar and then open the app.
8. When prompted, enter the username and password you created when registering your product at Esconsticn.com.

Dashboard
View your speed, speed limit, radar sensitivity, and heading.

Settings
Customize ESCORT Live and your detector to your personal preferences.
