Congratulations. You have just purchased the most innovative and comprehensive radar/laser accessory available—SmartCord Live DirectWire. SmartCord Live uses Bluetooth® technology to communicate with your iPhone using our exclusive app. This combination of technologies gives you access to the most powerful driver alert network—ESCORT Live! (subscription may apply). You can also easily access your detector’s settings and manage alerts from your iPhone®.

With ESCORT Live!, you and your fellow drivers will instantly communicate all radar/laser encounters automatically, providing the most up-to-date and accurate protection on the road. Imagine millions of other drivers helping you Drive Smarter!

You’ll still enjoy all the state-of-the-art performance you’ve come to expect from your detector, but you’ll also have access to:

- ESCORT Live!—our exclusive real-time ticket protection network, which warns you of upcoming alerts received by other users in the area.
- Our DEFENDER Database, which warns you of verified speed traps, speed cameras, and red light cameras.
- Our most popular GPS-powered features, including speed-limit data for over-speed alerts, live traffic data for your current location, and TrueLock™ to help eliminate false alerts. You can also Mark Locations for future reference.
- SmartCord Live DirectWire is fully compatible with ESCORT’s Shifter ZR4™ Laser-Shifting System (optional, sold separately).

NOTE: ESCORT Live! enabled features are only available while running the iPhone application.

Features

Connections and Controls

Connections: Windshield Detectors Only

Features

Connections: SmartCord DirectWire power and data connections for windshield mount detectors

Report Button (with ESCORT Live!)
1. Push to manually report to other users a verified X or K-band alert, or a police officer observing traffic.
2. If you’ve lost your Bluetooth connection on your iPhone, press the Report Button to reconnect SmartCord Live to your iPhone.

Alert Light
- Blinking red: Receiving an alert
- Solid orange: Receiving a locked-out alert

Power/Bluetooth Light
- Solid green: Power is ON
- Solid blue: Cord has Bluetooth connection and you are connected to the ESCORT Live! network

Mute Button
Push to mute an alert. Push three times to lock out or unlock a false alert

Connections: Shifter ZR4 Only

Features

Connections: SmartCord DirectWire power and data connections for Shifter ZR4

WARNING: Attempting to install SmartCord Live DirectWire without expertise in automotive electronic installations can cause personal injury or damage to your device or your vehicle. Consult a professional if you have no experience with 12-volt installations.

1. Plug the modular connector end of the DirectWire power cord into the port marked “J2” on the back of SmartCord Live
2. Attach the lug on the cord’s black wire to any grounded screw under your vehicle’s dashboard
3. Position the provided blue 3M connector around an existing switched (powers on and off with the ignition) wire. NOTE: The connector can ONLY be used with wire gauges 14-18
4. Squeeze the connector with pliers until the halves snap together
5. Plug the insulated male spade lug on the red striped wire into the 3M connector, ensuring the insulator completely covers the connector
6. Use the mounting tape and zip ties to secure any loose/dangling wires
7. Connect your detector to SmartCord Live using the provided 10 ft. cord. Plug one end of the cord into the port marked “J1” on SmartCord Live and the other end into your detector’s 12V port
