We believe in providing products that allow you to be your authentic self. We know that your role changes on a daily basis – on any given day you might be boss, mom, student or fashionista.

We're a team of women who have been there. We use our experience, intuition, and passion for style to design handbags that allow you to be who you want to be that day.

We believe in stunning designs with the features you need, produced using the highest quality vegan leather. And because we understand that the look you wore yesterday might not be the look you want today, we make it affordable to allow you to change it up without breaking the bank.

Our Spring/Summer 2021 is really a breath of fresh air after a long 2020. We're bringing back our customer favorites such as the Harper Crossbody and we've added brand new styles such as 2-n-1 bags, latest on-trend fabrics such as croc and snakeskin and new colors such as celery, teal, orange and fuchsia. Better days are coming. Let's be ready for them in style!
