Below are the sizes of the individual FireStones used in our various FireStone Assortment Packs. One of the attachments is a PDF of this information. The other is a photo representation of the relative sizes of the various STA FireStones Assortment Packs (it helps tell the story about the differences between the packs - please be sure to look at it). **Please note:** FireStones are sold in the below assortments or in sets, but are not sold individually. We do not break pack due to our manufacturing process for this product category.

Offer standard set sizes to fit onto our CS and CXF burners. The sets are combinations of the below STA FireStones Assortment Packs:
