All BTU ESTIMATES ARE APPROXIMATE AND CALCULATED USING NATURAL GAS @ 8 INCHES OF WATER COLUMN PRESSURE

We strongly recommend that our products be installed and serviced by professionals certified in the United States by the (NFI) National Fireplace Institute or in Canada by WETT (Wood Energy Technical Training)

Never operate an open flame fire feature under any type of overhang or cover without verifying local and national fire code restrictions.

Below is a general fire feature non structural clearance guideline.

Be sure to check for fire feature clearance guidelines, codes, or ordinances specifically for your area.
