

ALTERNA™ Vented FireShapes™ - Sets

About Our Ceramic Stain Coloration

Rasmussen uses our own proprietary, environmentally-friendly ceramic stain coloration, which differs from paint in the following qualities:

- 1) Ceramic Stain produces a transparent, non-uniform appearance, as it absorbs into the material's pores, rather than merely covering the surface of the shape, like paint.
- 2) Unlike paint, ceramic stain will not burn away under fire. Ceramic stain will age gracefully.
- 3) Color appearance may vary from piece to piece, enhancing the uniqueness of our products.
- 4) **Darker colors, like Black, Dark Gray, Brown, or Coal, make soot, a natural byproduct of a yellow pan burner or firepit flame, less noticeable than against the lighter colors.**

Color Codes for Smooth Balls and Shapes: •Beige = **BE** •Black = **BL** •Brown = **BR**
 •Dark Gray = **DG** •Light Gray = **LG** •Natural = **NA** •Adobe Red = **RD**
 Please suffix above codes to Item Numbers, eg. **FB24-NA**

FireBalls™ Sets (FB) - Uniform Size Smooth Balls

4-inch diameter

Use as either Single or Double Face.

Set Size	Item #	No. Pieces	# Ctns	Wt	Use with Burner
