**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**  
**September 30, 2009**

**NOTE 1 – BASIS OF PRESENTATION**

**OVERVIEW**

The Singing Machine Company, Inc., a Delaware corporation (the "Company," "SMC", "The Singing Machine", "we" or "us"), and wholly-owned subsidiaries SMC (Comercial Offshore De Macau) Limitada ("Macau Subsidiary"), SMC Logistics, Inc. ("SMC-L"), SMC-Music, Inc. ("SMC-M"), and Singing Machine Holdings Ltd. (a B.V.I. company) are primarily engaged in the development, marketing, and sale of consumer karaoke audio equipment, accessories, musical instruments and musical recordings. The products are sold directly to distributors and retail customers.

The preparation of The Singing Machine's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the period. Future events and their effects cannot be determined with absolute certainty; therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the Company's financial statements. Management evaluates its estimates and assumptions continually. These estimates and assumptions are based on historical experience and other factors that are believed to be reasonable under the circumstances.

**NOTE 2-SUMMARY OF ACCOUNTING POLICIES**

**PRINCIPLES OF CONSOLIDATION.** The accompanying consolidated financial statements include the accounts of the Company, Macau Subsidiary, SMC-L, SMC-M and The Singing Machine Holdings Ltd. (a B.V.I. company). All inter-company accounts and transactions have been eliminated in consolidation for all periods presented.

**INTERIM CONSOLIDATED FINANCIAL STATEMENTS.** The consolidated financial statements for the three months and six months ended September 30, 2009 and 2008 are unaudited. In the opinion of management, such consolidated financial statements include all adjustments (consisting of normal recurring accruals) necessary for the fair presentation of the consolidated financial position and the consolidated results of operations. The consolidated results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet information as of March 31, 2009 was derived from the audited consolidated financial statements included in the Company's Annual Report on Form 10-K. The interim consolidated financial statements should be read in conjunction with that report.

**USE OF ESTIMATES.** The Singing Machine makes estimates and assumptions in the ordinary course of business relating to sales returns and allowances, inventory reserves, warranty reserves, and reserves for promotional incentives that affect the reported amounts of assets and liabilities and of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Historically, past changes to these estimates have not had a material impact on the Company's financial condition. However, circumstances could change which may alter future expectations.

**COLLECTIBILITY OF ACCOUNTS RECEIVABLE.** The Singing Machine's allowance for doubtful accounts is based on management's estimates of the creditworthiness of its customers, current economic conditions and historical information, and, in the opinion of management, is believed to be an amount sufficient to respond to normal business conditions. Management sets 100% reserves for customers in bankruptcy and other reserves based upon historical collection experience. Should business conditions deteriorate or any major customer default on its obligations to the Company, this allowance may need to be significantly increased, which would have a negative impact on operations.

**ACCOUNTS RECEIVABLE FACTORING.** The Company's factoring facility only finances non-recourse accounts receivable. Such receivables are considered to have been sold in accordance with Financial Accounting Standard Board ("FASB"), Accounting Standard Codification ("ASC") 860-30 Transfers and Servicing Secured Borrowing and Collateral. Accordingly, advances received pursuant to the factoring facility have been netted against the accounts receivable on the accompanying Balance Sheets.

**RESERVES ON INVENTORIES.** The Singing Machine reduces inventory on hand to its net realizable value on an item-by-item basis when it is apparent that the expected realizable value of an inventory item falls below its original cost. A charge to cost of sales results when the estimated net realizable value of specific inventory items declines below cost. Management regularly reviews the Company's inventories for such declines in value.

**FOREIGN CURRENCY TRANSLATION**

The functional currency of the Macau Subsidiary is the Hong Kong dollar. Such financial statements are translated to U.S. dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the year for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions and translations were not material during the periods presented.

## CONCENTRATION OF CREDIT RISK

The Company maintains cash balances in foreign financial institutions. The amounts at September 30, 2009 and March 31, 2009 are \$1,751,868 and \$666,643, respectively. At times the Company maintains cash in United States bank accounts that are in excess of the Federal Deposit Insurance Corporation ("FDIC") insured amounts of up to \$250,000. As of September 30, 2009 and March 31, 2009 the amounts uninsured in United States banks was \$0 and \$1,438, respectively.

## INVENTORY

Inventories are comprised of electronic karaoke equipment, accessories, electronic musical instruments, electronic toys and compact discs and are stated at the lower of cost or market, as determined using the first in, first out method. The Singing Machine reduces inventory on hand to its net realizable value on an item-by-item basis when it is apparent that the expected realizable value of an inventory item falls below its original cost. A charge to cost of sales results when the estimated net realizable value of specific inventory items declines below cost. Management regularly reviews the Company's investment in inventories for such declines in value.

## REVENUE RECOGNITION

Revenue from the sale of equipment, accessories, and musical recordings are recognized upon the later of: (a) the time of shipment or (b) when title passes to the customers and all significant contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. Revenues from sales of consigned inventory are recognized upon sale of the product by the consignee. Net sales are comprised of gross sales net of actual and estimated future returns, discounts and volume rebates.

## STOCK BASED COMPENSATION

The Company began to apply the provisions FASB ASC 718-20, Compensation – Stock Compensation Awards Classified as Equity starting on January 1, 2006. ASC 718-20 requires all share-based payments to employees including grants of employee stock options, be measured at fair value and expensed in the consolidated statement of operations over the service period (generally the vesting period). Upon adoption, the Company transitioned to ASC 718-20 using the modified prospective application, whereby compensation cost is only recognized in the consolidated statements of operations beginning with the first period that ASC 718-20 is effective and thereafter, with prior periods' stock-based compensation still presented on a pro forma basis. Under the modified prospective approach, the provisions of ASC 718-20 are to be applied to new employee awards and to employee awards modified, repurchased, or cancelled after the required effective date. Additionally, compensation cost for the portion of employee awards for which the requisite service has not been rendered that are outstanding as of the required effective date shall be recognized as the requisite service is rendered on or after the required effective date. The compensation cost for that portion of employee awards shall be based on the grant-date fair value of those awards as calculated for either recognition or pro-forma disclosures under ASC 718-20. The Company continues to use the Black-Scholes option valuation model to value stock options. For the three and six months ended September 30, 2009, the stock option expense was \$3,936 and \$7,938, respectively. For the three and six months ended September 30, 2008, the stock option expense was \$3,640 and \$7,280, respectively. Employee stock option compensation expense in fiscal years 2010 and 2009 includes the estimated fair value of options granted, amortized on a straight-line basis over the requisite service period for the entire portion of the award.

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes option-pricing model with the assumptions outlined below. For the quarter ended September 30, 2009, the Company took into consideration guidance under ASC 718-20 and SEC Staff Accounting Bulletin No. 107 (SAB 107) when reviewing and updating assumptions. The expected volatility is based upon historical volatility of our stock and other contributing factors. The expected term is based upon observation of actual time elapsed between date of grant and exercise of options for all employees. Previously such assumptions were determined based on historical data.

- For the six months ended September 30, 2009: expected dividend yield 0%, risk-free interest rate of 0.57% to 1.41%, volatility 70.22% and 80.07% and expected term of one year.
- For the six months ended September 30, 2008: expected dividend yield 0%, risk-free interest rate of 1.55%, volatility of 67.41% and expected term of one year.

## ADVERTISING

Costs incurred for producing and publishing advertising of the Company are charged to operations as incurred. The Company has entered into cooperative advertising agreements with its major clients that specifically indicated that the client has to spend the cooperative advertising fund upon the occurrence of mutually agreed events. The percentage of the cooperative advertising allowance ranges from 2% to 5% of the purchase. The clients have to advertise the Company's products in the client's catalog, local newspaper and other advertising media. The client must submit the proof of the performance (such as a copy of the advertising showing the Company's products) to the Company to request for the allowance. The client does not have the ability to spend the allowance at their discretion. The Company believes that the identifiable benefit from the cooperative advertising program and the fair value of the advertising benefit is equal or greater than the cooperative advertising expense. Advertising expense for the six months ended September 30, 2009 and 2008 was \$282,369 and \$200,041, respectively.

## RESEARCH AND DEVELOPMENT COSTS

All research and development costs are charged to results of operations as incurred. These expenses are shown as a component of selling, general and administrative expenses in the consolidated statements of operations. For the six months ended September 30, 2009 and 2008, these amounts totaled \$39,762 and \$6,654, respectively.

## FAIR VALUE OF FINANCIAL INSTRUMENTS

We have adopted FASB ASC 825, "Financial Instruments," which requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts of the Company's short-term financial instruments, including accounts receivable, due from factors, accounts payable, customer credits on account, accrued expenses and loans payable to related parties approximates fair value due to the relatively short period to maturity for these instruments.

## RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to the current period presentation.

## RECENT ACCOUNTING PRONOUNCEMENTS

Beginning with the quarter ended June 30, 2009 we adopted the provisions of FASB ASC 855, Subsequent Events ("ASC 855"). The purpose of ASC 855 is to establish a general standard of accounting for the disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The statement outlines the following:

- The period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements
- The circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements
- The disclosures that an entity should make about events or transactions that occurred after the balance sheet date.

ASC 855 was effective for interim and annual periods ending after June 15, 2009. The adoption of ASC 855 did not have any impact on our consolidated financial statements.

## NOTE 3- INCOME TAXES

The Company follows FASB ASC 740 ("ASC 740"), Income Taxes relating to the recognition of income tax benefits. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. If it is more likely than not that some portion of a deferred tax asset will not be realized, a valuation allowance is recognized. ASC 740 provides a two-step approach to recognizing and measuring tax benefits when the benefits' realization is uncertain. The first step is to determine whether the benefit is to be recognized; the second step is to determine the amount to be recognized:

- Income tax benefits should be recognized when, based on the technical merits of a tax position, the company believes that if a dispute arose with the taxing authority and were taken to a court of last resort, it is more likely than not (i.e., a probability of greater than 50 percent) that the tax position would be sustained as filed; and
- If a position is determined to be more likely than not of being sustained, the reporting company should recognize the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with the taxing authority.

Significant management judgment is required in developing The Singing Machine's provision for income taxes, including the determination of foreign tax liabilities, deferred tax assets and liabilities and any valuation allowances that might be required against the deferred tax assets. Management evaluates its ability to realize its deferred tax assets on a quarterly basis and adjusts its valuation allowance when it believes that it is more likely that the asset will not be realized.

As of September 30, 2009 and March 31, 2009, The Singing Machine had gross deferred tax assets of approximately \$3.7 million and \$3.1 million, respectively, against which the Company recorded valuation allowances totaling approximately \$3.7 million and \$3.1 million, respectively.

#### NOTE 4- INVENTORIES

Inventories are comprised of the following components:

	September 30, 2009 <u>(unaudited)</u>	March 31, 2009 <u></u>
Finished Goods	\$ 4,412,342	\$ 5,475,056
Inventory in Transit	1,557,550	-
Less: Inventory Reserve	<u>(936,568)</u>	<u>(745,389)</u>
Net Inventories	<u>\$ 5,033,324</u>	<u>\$ 4,729,667</u>

Inventory consigned to customers at September 30, 2009 and March 31, 2009 were \$357,078 and \$352,214, respectively.

During the first quarter ended June 30, 2009 the Company recognized an inventory impairment charge of \$181,142 to adjust certain Bratz licensed products and musical instruments to lower of cost or market value to accommodate large discounted sales and potential sales in subsequent periods.

#### NOTE 5 - ACCOUNTS RECEIVABLE FACTORING FACILITY

On August 28, 2008, the Company executed a three-party Banking Facility agreement between the Company's wholly owned subsidiary SMC (Commercial Offshore De Macau) Limitada ("Borrower"), DBS Bank (Hong Kong) Limited ("Lender") and Branch Banking and Trust Company ("BB&T" or "Factor"). The agreement is comprised of three facilities including a maximum of \$7.0 million on 80% of qualified accounts receivable, a maximum letter of credit facility of \$4.0 million for accounts payable financing and a maximum of \$2.0 million for the negotiation of export bills under letter of credit.

According to the factoring facility, BB&T will serve as the correspondent factor for the Lender and does not advance funds to the Company directly. The Company assigns the proceeds from customers to the Lender and the Lender advances funds to the Borrower. The maximum amount for the advance is approximately \$7.0 million or 80% of the qualified accounts receivable, which ever is higher. The Factor assumes credit risk on approved accounts (factor risk accounts). For non-approved accounts, the Company will assume the credit risk (client risk accounts). The factoring fees are .675% of the gross invoice for both client risk (recourse) and factor risk (non-recourse) accounts. As of September 30, 2009 there was a total of \$3,823,445 of open accounts receivable assigned to the Factor. The Company assumed credit risk (recourse) in the amount of \$385,423. Credit risk on the remaining factor assigned receivables in the amount of \$3,438,022 was assumed by the Factor (non-recourse). This agreement was effective October 16, 2008 and replaces a previous four-party agreement between the Company, Starlight Marketing Limited (a related party), Standard Chartered Bank (Hong Kong), Limited and CIT ("Old Factor"). As of September 30, 2009 and March 31, 2009 the outstanding amount due from factors was \$15,945 and \$73,854, respectively. The amounts represent excess of customer payments received by BB&T that had yet to be transferred to DBS bank. As of September 30, 2009 and March 31, 2009 the outstanding amount under the factoring facility with DBS Bank was \$2,567,942 and \$799,112, respectively. This amount represents advances made by the Bank on non-recourse receivables and have been offset against accounts receivable in the accompanying consolidated balance sheet. The terms of the agreement are more particularly described in Note 8.

## NOTE 6 - PROPERTY AND EQUIPMENT

A summary of property and equipment is as follows:

	USEFUL LIFE	September 30, 2009 (unaudited)	March 31, 2009
Computer and office equipment	5 years	\$ 660,948	\$ 652,235

## NOTE 7 - CUSTOMER CREDITS ON ACCOUNT

Customer credits on account represent customers that have received credits in excess of their accounts receivable balance. These balances were reclassified for financial statement purposes as current liabilities until paid or applied to future purchases.

## NOTE 8 – FINANCING

On February 12, 2008 the Macau Subsidiary entered into a Banking Facilities agreement with Heng Seng Bank Limited (“Bank”). Under the terms of the agreement, the Macau Subsidiary had access to \$5,100,000 in total facilities including \$500,000 for payment of goods financed under the bank’s letters of credit, \$3,000,000 for negotiation of discrepant documents presented under export letters of credit and a factoring facility to a maximum of \$1,600,000. Interest on open balances was due and payable monthly at a rate of 2% per annum above LIBOR (London Interbank Offered Rate). The amounts borrowed were collateralized by a promissory note from the Macau Subsidiary of \$5.8 million and an unlimited written guarantee from the Company. There were no amounts due to the Bank as of September 30, 2009 and March 31, 2009, respectively. In July 2009 the Bank informed the Company that these facilities have been rescinded effective immediately.

On July 16, 2008 SMC-L entered into a financing arrangement with Westover Financial, Inc. for the purchase of four forklifts for the California logistics operations. The terms of the agreement required an initial payment of \$18,691 and 36 monthly payments of \$1,516. On September 30, 2009 the remaining amount due on this obligation was \$33,342 of which \$18,186 is due within the next twelve months and the remaining \$15,156 due after one year.

On August 28, 2008, the Company executed a three-party Banking Facility agreement between the Macau Subsidiary (“Borrower”), DBS Bank (Hong Kong) Limited (“Lender”) and BB&T (“Factor”). The agreement provides for credit facilities to a maximum of \$13.0 million consisting of the following:

- Maximum of \$7.0 million on 80% of qualified accounts receivable.
- Maximum letter of credit facility of \$4.0 million for accounts payable financing.
- Maximum \$2.0 million negotiation of export bills under letter of credit.

Interest on letter of credit facilities and discounting charges on accounts receivable advances will be charged at a rate of 1.5% per annum over LIBOR (London Interbank Offered Rate). The credit facility is secured with corporate guarantees from the Company as well as a \$2.0 million guarantee from Starlight International Holdings Limited, a related party (“Starlight”). BB&T will serve as the correspondent factor for the Lender for the Company’s qualified North American accounts receivable. BB&T does not advance funds to the Company directly. The Company assigns the proceeds from customers to the Lender and the Lender advances funds to the Borrower. The combined factoring fees will be .675% of the gross invoice for all factored accounts. This agreement is effective October 16, 2008 and replaces the previous four-party agreement between the Company, Starlight, Standard Chartered Bank (Hong Kong), Limited and CIT (“Old Factor”).

As of September 30, 2009 and March 31, 2009 the outstanding amount due from factors was \$15,945.34 and \$73,854, respectively. The amounts represent excess of customer payments received over amounts borrowed. As of September 30, 2009 and March 31, 2009 the outstanding amount

due to DBS Bank was \$2,567,942 and \$799,112, respectively pursuant to the factoring facility. The amount has been offset against accounts receivable in the accompanying consolidated balance sheet.

During the period ended September 30, 2009, the Company obtained short term bank financing from DBS Bank in the amount of \$1,322,884 pursuant to an accounts payable financing facility. The proceeds were used to pay China manufacturing vendors. The accounts payable facility loans are secured with corporate guarantees from the Company as well as a guarantee from Starlight and bear interest between 1.79% and 1.96%. The loan for the negotiation of export bills is secured by letters of credit from our customers. The amounts are due to DBS Bank as follows:

<b>Amount</b>	<b>Due Date</b>	<b>Interest Rate</b>
\$ 207,910	9-Nov-09	1.96%
\$ 100,000	23-Nov-09	1.89%
\$ 92,756	26-Nov-09	1.86%
\$ 89,688	7-Dec-09	1.81%
\$ 210,540	9-Dec-09	1.80%
\$ 90,407	15-Dec-09	1.79%
\$ 531,583	21-Dec-09	1.79%
<b>\$ 1,322,884</b>		

## **NOTE 9 - COMMITMENTS AND CONTINGENCIES**

### **LEGAL MATTERS**

There is currently no pending litigation against the Company, however the Company may be subject to various legal proceedings and other claims that arise in the ordinary course of business.

### **INCOME TAXES**

In a letter dated July 21, 2008 the Internal Revenue Service (IRS) notified the former foreign subsidiary of an unpaid tax balance on Income Tax Return of a Foreign Corporation (Form 1120-F) for the period ending March 31, 2003 for International SMC (HK) Limited "ISMC (HK)", a former subsidiary. According to the notice ISMC (HK) has an unpaid balance due in the amount of \$241,639 that includes an interest assessment of \$74,125. ISMC (HK) was sold in its entirety by the Company on September 25, 2006 to a British Virgin Islands company ("Purchaser"). The sale and purchase agreement with the Purchaser of ISMC (HK) specifies that the Purchaser would ultimately be responsible for any liabilities, including tax matters. On June 3, 2009 the IRS filed a federal tax lien in the amount of approximately \$170,000 against ISMC (HK) under ISMC (HK)'s federal Tax ID. Management sought independent legal counsel to assess the potential liability, if any, on the Company. In a memorandum from independent counsel, the conclusion based on the facts presented was that the IRS would not prevail against the Company for collection of the ISMC (HK) income tax liability based on:

- The Internal Revenue Service's asserted position that the Company is not the taxpayer.
- The 1120-F tax liability was recorded under the taxpayer identification number belonging to ISMC and not the Company's taxpayer identification number
- The IRS would be barred from recovery since it failed to assess or issue a notice of levy within the three year statute of limitations

Based on the conclusion reached in the legal memorandum, management does not believe that the Company will have any further liability with regards to this issue.

### **LEASES**

The Company has entered into various operating lease agreements for office and warehouse facilities in Coconut Creek, Florida and City of Industry, California. The leases expire at varying dates. Rent expense for the six months ended September 30, 2009 and 2008 was \$439,717 and \$141,421, respectively.

In addition, the Company maintains various warehouse equipment and computer equipment operating leases.

Future minimum lease payments under property and equipment leases with terms exceeding one year as of September 30, 2009 are as follows:

For period ending September 30,	<u>Property Leases</u>	<u>Equipment Leases</u>
2010	\$ 568,799	\$ 8,788
2011	636,476	4,166
2012	655,571	-
2013	560,470	-
	<u>\$ 2,421,316</u>	<u>\$ 12,954</u>

## LICENSE AGREEMENTS

On May 10, 2006, we entered into a two-year license agreement with MGA Entertainment, Inc. to produce and distribute a variety of karaoke products based on MGA's BRATZ™ franchise, one of the world's leading toy lines and girls' lifestyle brands, in North America, Europe and Australia. These karaoke products include a TFT DVD karaoke system, sing-a-long cassette players, deluxe microphones, electronic keyboards and an electronic drum. The license agreement contains a minimum guarantee payment term.

On November 21, 2006 we also entered into a three-year license agreement with MGA Entertainment, Inc. to produce and distribute a variety of consumer electronic products based on MGA's BRATZ™ franchise, one of the world's leading toy lines and girls' lifestyle brands, in North America, New Zealand, Chile and Australia. These consumer electronic products include boom boxes, clock radios and portable DVDs. The license agreement contains a minimum guarantee payment term.

As of September 30, 2009 the total amount due to MGA Entertainment, Inc. was \$427,607. This amount includes \$185,607 of additional royalties due and is included in accrued expenses on the accompanying consolidated balance sheet. In addition the Company owes MGA Entertainment, Inc. \$242,000 for guaranteed minimum advances due by December 31, 2008. This amount has not been included in the consolidated financial statements since it would be considered a "gross-up" of the balance sheet. The amounts due have not been paid due to an ongoing lawsuit between Mattel Inc. and MGA Entertainment Inc. wherein Mattel has legally challenged MGA's trademark rights to the BRATZ™ franchise.

## NYSE AMEX EQUITIES STATUS

On June 22, 2009 the Company received notice from NYSE Amex Equities ("AMEX") that it has determined that our common stock will be delisted and no longer trade on the exchange. The Company's Board of Directors board of directors decided that it was not in the best interest of the Company and its shareholders to expend the financial resources necessary to appeal the decision and continue to be listed on AMEX. On July 6, 2009, the Company's stock was suspended from trading on AMEX. The Company immediately applied for admission to the Over the Counter Bulletin Board ("OTCBB") and subsequently began trading on the OTCBB on July 7, 2009 under the symbol "SMDM".

## NOTE 10 - STOCKHOLDERS' EQUITY

### COMMON STOCK ISSUANCES

During the six months ended September 30, 2009 and 2008, the Company issued 0 and 940,476 shares of its common stock, respectively.

The shares issued during the six months ended September 30, 2008 were to Starlight Industrial Holdings, Ltd. for \$197,500 (\$.21 per share) for the satisfaction of certain payables owed by the Company for tooling.

### EARNINGS PER SHARE

In accordance with FASB ASC 210, "Earnings per Share", basic (loss) earnings per share are computed by dividing the net (loss) earnings for the year by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net earnings for the year by the weighted average number of common shares outstanding including the effect of common stock equivalents.

For the six months ended September 30, 2009 and 2008, common stock equivalents to purchase 1,716,710 and 3,213,215 shares of stock were not included in the computation of diluted earnings per share because the exercise prices were greater than the average market price of the Company's common stock for the period.

### STOCK OPTIONS

On June 1, 2001, the Board of Directors approved the 2001 Stock Option Plan ("Plan"), which replaced the 1994 Stock Option Plan, as amended, (the "1994 Plan"). The Plan was developed to provide a means whereby directors and selected employees, officers, consultants, and advisors of the Company may be granted incentive or non-qualified stock options to purchase common stock of the Company. As of September 30, 2009, the

Plan is authorized to grant options up to an aggregate of 1,950,000 shares of the Company's common stock and up to 300,000 shares for any one individual grant in any quarter. As of September 30, 2009, the Company granted 1,319,225 options under the Year 2001 Plan with 886,710 options still outstanding, leaving 630,775 options available to be granted. There were no additional stock options issued during the six months ended September 30, 2009. As of September 30, 2009, the Company has no options still issued and no options available to be granted under the 1994 Plan, since the 1994 Plan has expired (after 10 years).

## STOCK WARRANTS

As of September 30, 2009, the Company had a total of 1,250,000 stock purchase warrants outstanding. The exercise price of these warrants is \$0.35. The expiration date of these warrants is July 26, 2010.

## NOTE 11 - GEOGRAPHICAL INFORMATION

The majority of sales to customers outside of the United States for the three months ended September 30, 2009 and 2008 were made by the Macau Subsidiary. Sales by geographic region for the period presented are as follows:

	FOR THE THREE MONTHS ENDED		FOR THE SIX MONTHS ENDED	
	September 30,		September 30,	
	2009	2008	2009	2008
North America	\$ 5,302,263	\$ 9,386,839	6,116,271	\$10,615,487
Europe	1,664,806	3,029,757	1,664,806	3,164,896
Others	24,303	199,800	24,303	606,359
	<u>\$ 6,991,372</u>	<u>\$12,616,396</u>	<u>\$ 7,805,380</u>	<u>\$14,386,742</u>

The geographic area of sales is based primarily on the location where the product is delivered.

## NOTE 12 – DUE TO RELATED PARTIES, NET

As of September 30, 2009 and March 31, 2009 the Company had amounts due to related parties in the amounts of \$2,103,531 and \$1,498,391, respectively consisting primarily of non-interest bearing trade payables and expenses due to Starlight affiliates.

## NOTE 13 – RELATED PARTY TRANSACTIONS

On May 23, 2008, SMC Logistics entered into a service and logistics agreement with affiliates Starlight Consumer Electronics (USA), Inc. and Cosmo Communications Corp. ("Cosmo") to provide logistics, fulfillment, and warehousing services for Starlight and Cosmo's domestic sales. The Company received \$622,938 and \$414,644 in service fees from these affiliates during the six months ended September 30, 2009 and September 30, 2008, respectively. For the six months ended September 30, 2009 and 2008, the Company additionally received reimbursements from Cosmo in the amount of \$62,305 and \$58,702, respectively for expenses and salaries incurred by SMC Logistics on behalf of Cosmo.

On April 1, 2008, the Company issued 940,476 shares of common stock to Starlight Industrial Holdings, Ltd. for \$197,500 (\$.21 per share) as payment for certain payables owed by the Company for tooling. There was no common stock issue to related parties during the first six months ended September 30, 2009.

## NOTE 14 – SUBSEQUENT EVENTS

We evaluated the effects of all subsequent events from the end of the second quarter ended September 30, 2009 through November 16, 2009, the date we filed our financial statements with the U.S. Securities and Exchange Commission ("SEC"). There were no events to report during this evaluation period.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes included elsewhere in this quarterly report. This document contains certain forward-looking statements including, among others, anticipated trends in our financial condition and results of operations and our business strategy. (See Part II, Item 1A, "Risk Factors"). These forward-looking statements are based largely on our current expectations and are subject to a number of risks and uncertainties. Actual results could differ materially from these

forward-looking statements.

Statements included in this quarterly report that do not relate to present or historical conditions are called "forward-looking statements." Such forward-looking statements involve known and unknown risks and uncertainties and other factors that could cause actual results or outcomes to differ materially from those expressed in, or implied by, the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions. Words such as "believes," "forecasts," "intends," "possible," "estimates," "anticipates," "expects," "plans," "should," "could," "will," and similar expressions are intended to identify forward-looking statements. Our ability to predict or project future results or the effect of events on our operating results is inherently uncertain. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved.

Important factors to consider in evaluating such forward-looking statements include, but are not limited to: (i) changes in external factors or in our internal budgeting process which might impact trends in our results of operations; (ii) unanticipated working capital or other cash requirements; (iii) changes in our business strategy or an inability to execute our strategy due to unanticipated changes in the industries in which we operate; and (iv) the effects of adverse general economic conditions, both within the United States and globally, (v) vendor price increases and decreased margins due to competitive pricing during the economic downturn (vi) various competitive market factors that may prevent us from competing successfully in the marketplace and (vii) other factors described in the risk factors section of our Annual Report on Form 10-K, this Quarterly Report on 10-Q, or in our other filings made with the SEC.

Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

## **OVERVIEW**

The Singing Machine Company, Inc., a Delaware corporation, (the "Singing Machine," "we," "us" or "ours") and our subsidiaries are primarily engaged in the design, marketing, and sale of consumer karaoke audio equipment, accessories, musical recordings and Bratz licensed electronic products. The Company's products are sold directly to distributors and retail customers. Our electronic karaoke machines and audio software products are marketed under The Singing Machine(R) and Motown trademarks.

Our products are sold throughout North America and Europe, primarily through department stores, lifestyle merchants, mass merchandisers, direct mail catalogs and showrooms, music and record stores, national chains, specialty stores and warehouse clubs.

Our karaoke machines and karaoke software are currently sold in such major retail outlets as Costco, Kohl's, J.C. Penney, Toys R Us, Wal-Mart and Sam's Club. Our business has historically been subject to significant seasonal fluctuations causing our revenues to vary from period to period and between the same periods in different fiscal years. Thus, it may be difficult for an investor to project our results of operations for any given future period. We are uncertain of how significantly our business will be harmed by a prolonged economic recession but, we anticipate that continued contraction of consumer spending will negatively affect our revenues and profit margins.

## **RESULTS OF OPERATIONS**

The following table sets forth, for the periods indicated, certain items related to our consolidated statements of operations as a percentage of net sales for the three months and six months ended September 30, 2009 and 2008.

**The Singing Machine Company, Inc. and Subsidiaries**  
**CONSOLIDATED STATEMENTS OF OPERATIONS**

	For Three Months Ended		For Six Months Ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
<b>Net Sales</b>	100.0%	100.0%	100.0%	100.0%
<b>Cost of Goods Sold</b>	80.2%	84.0%	85.9%	84.5%
<b>Gross Profit</b>	19.8%	16.0%	14.1%	15.5%
<b>Operating Expenses</b>				
Selling expenses	9.1%	6.3%	12.0%	7.0%

<b>Net (Loss) Income</b>	-4.5%	0.8%	-23.8%	-6.4%

**QUARTER ENDED SEPTEMBER 30, 2009 COMPARED TO THE QUARTER ENDED SEPTEMBER 30, 2008**

**NET SALES**

Net sales for the quarter ended September 30, 2009 decreased to \$6,991,372 from \$12,616,396, a decrease of \$5,625,024 as compared to the same period ended September 30, 2008. This decrease in sales is primarily due to a significant drop in direct import sales through our Macau subsidiary to both North American and international customers. For the quarter ended September 30, 2009 sales to international customers decreased by approximately \$1,287,000 and direct import sales to domestic customers decreased by approximately \$4,480,000 compared to the quarter ended September 30, 2008 due to continued economic recession concerns.

**GROSS PROFIT**

Our gross profit for the quarter ended September 30, 2009 decreased to \$5,607,768 from \$10,595,445 a decrease of \$4,987,677 as compared to the same period in the prior year. This decrease is primarily due to the decrease in revenue in the quarter as compared to the same quarter in the prior year. As a percentage of revenues, our gross profit for the three months ended September 30, 2009 increased to 19.8% from 16.0% for the same period in 2008. The increase in gross profit as a percentage of revenues was primarily due to the lower mix of direct import business which typically yields lower profit margins.

**OPERATING EXPENSES**

For the quarter ended September 30, 2009, total operating expenses decreased to \$1,668,897. This represents a decrease of \$223,700 from the same period's quarter ended total operating expenses of \$1,892,597. This decrease was primarily due to reduced selling and general administrative expenses associated with the decreased amount of sales.

Factors contributing to the decrease in operating expenses are as follows:

- 1) Selling expenses decreased \$156,511 which was primarily due to decreased royalty expense due from decreased sales of licensed Bratz products and decreased commission due to the lower volume of sales to North American customers.

2) General and administrative expenses decreased \$66,203 which was primarily due a decrease in compensation expenses due to layoffs and a temporary 10% wage and salary reduction during the three months ended September 30, 2009. This was offset by increased repair and spare parts expenses associated with increased product returns.

## **INCOME FROM OPERATIONS**

Loss from operations increased \$413,647 this quarter, to \$285,293 for the three months ended September 30, 2009 compared to net income from operations of \$128,354 for the same period ended September 30, 2008. The decrease was primarily due to the decrease in net sales compared to the same period in the prior year.

## **OTHER INCOME/EXPENSES**

Our net other expenses (interest expense) increased to \$27,683 from \$25,684 for the same period a year ago. The increase in interest expense was primarily due to the increase in financing required for inventory required for next quarter shipments.

## **INCOME TAXES**

For the three months ended September 30, 2009 and 2008, the Company did not record a tax provision because it expects current year-to-date losses and sufficient future net losses to offset the income for these periods.

## **NET INCOME**

For the three months ended September 30, 2009 net loss increased to \$312,976 compared to net income of \$102,670 for the same period a year ago. The decrease of net income was primarily due to the decrease in revenue as compared to the same period in the prior year.

## **SIX MONTHS ENDED SEPTEMBER 30, 2009 COMPARED TO THE SIX MONTHS ENDED SEPTEMBER 30, 2008**

### **NET SALES**

Net sales for the six months ended September 30, 2009 decreased to \$7,805,380 from \$14,386,742, a decrease of \$6,581,362 as compared to the same period ended September 30, 2008. This decrease in sales is primarily due to a significant drop in direct import sales through our Macau subsidiary to both North American and international customers. For the six months ended September 30, 2009 sales to international customers decreased by approximately \$2,627,000 and direct import sales to domestic customers decreased by approximately \$4,600,000 compared to the quarter ended September 30, 2008. These decreases were somewhat offset by a slight increase in sales to domestic customers from our California warehouse facility. Economic recession concerns were the primary reason for the drop in direct import sales.

### **GROSS PROFIT**

Our gross profit for the six months ended September 30, 2009 decreased to \$1,097,982 from \$2,223,600, a decrease of \$1,125,618 as compared to the same period in the prior year primarily due to the decrease in revenue for the comparable periods. As a percentage of revenues, our gross profit for the six months ended September 30, 2009 decreased to 14.1% from 15.5% for the same period in 2008. The decrease of gross profit as a percentage of revenues was primarily to one-time pricing discounts in the previous quarter totaling \$235,440 for slow moving and defective product and a one-time charge of \$181,142 in the previous quarter to adjust certain Bratz licensed products and musical instruments to lower of cost or market value to accommodate large discounted sales and potential sales in subsequent periods.

### **OPERATING EXPENSES**

For the six months ended September 30, 2009, total operating expenses decreased to \$2,933,044 from \$3,137,491 for the six months ended September 30, 2008, a decrease of \$204,447. Selling expenses decreased \$73,904 which was primarily due to decreased royalty expense due from decreased sales of licensed Bratz products and decreased commission due to the lower volume of sales to North American customers. General and Administrative expenses decreased \$128,148 due to reduced logistics expenses because of decreased shipment volume and increased operating efficiencies.

### **OTHER INCOME/EXPENSES**

Our net other expenses decreased to \$30,951 (interest expense) from \$33,000 (interest expense) for the same period a year ago due primarily to a slight decrease in interest rates compared to the same period a year ago.

### **INCOME TAXES**

For the six months ended September 30, 2009 and 2008, the Company did not record a tax provision because it had a net operating loss for the six months ended September 30, 2009 and had sufficient net operation loss from previous periods to offset the income for the six months ended September 30, 2008.

## **NET LOSS/INCOME**

We incurred a net loss \$1,866,013 for the six months ended September 30, 2009 compared to a net loss of \$946,891 for the same period a year ago. The increase in net loss was primarily due to the decrease in revenues.

## **LIQUIDITY AND CAPITAL RESOURCES**

As of September 30, 2009, Singing Machine had cash on hand of \$2,005,386 as compared to cash on hand of \$980,067 as of September 30, 2008. We had a working capital deficit of \$165,008 as of September 30, 2009.

Net cash used in operating activities was \$2,057,094 for the six months ended September 30, 2009, as compared to \$273,068 provided by operating activities the same period a year ago. The increase in net cash used was a result of the following factors: increase in accounts receivable due to end of quarter domestic shipments and increase in inventory required for fourth quarter shipments. These increases to cash used in operations were offset by increases in accounts payable to China and related party suppliers.

Net cash used by investing activities for the six months ended September 30, 2009 was \$36,729 as compared to \$401,293 used by investing activities for the same period ended a year ago. This decrease was caused primarily by limiting the amounts of capital expenditures for the current fiscal year.

Net cash provided by financing activities was \$3,142,046 for the six months ended September 30, 2009, as compared to \$660,476 for the same period ended a year ago. The Company increased its use of available credit facilities from DBS bank and reduced its reliance on related party and vendor financing as compared to the same period ended September 30, 2008

As of September 30, 2009, our unrestricted cash on hand was \$2,005,386. Our average monthly general and administrative expenses are approximately \$310,000. We expect that we will require approximately \$1 million for working capital during the next three-month period.

During the next 12 month period, we plan on financing our operation needs by:

- Raising additional working capital;
- Collecting our existing accounts receivable;
- Selling existing inventory;
- Vendor financing;
- Borrowing from factoring bank;
- Short term loans from our majority shareholder;
- Fees for fulfillment, delivery and returns services from related parties.

Our sources of cash for working capital in the long term, 12 months and beyond, are essentially the same as our sources during the short term. We are actively seeking additional financing facilities and capital investments to maintain and grow our business. If we need to obtain additional financing and fail to do so, it may have a material adverse effect on our ability to meet our financial obligations and to continue as a going concern.

## **INVENTORY SELL THROUGH**

We monitor the inventory levels and sell through activity of our major customers to properly anticipate returns and maintain the appropriate level of inventory. We believe that we have proper return reserves to cover potential returns based on historical return ratios and information available from the customers.

## **SEASONAL AND QUARTERLY RESULTS**

Historically, our operations have been seasonal, with the highest net sales occurring in our second and third fiscal quarters (reflecting increased orders for equipment and music merchandise during the Christmas holiday season) and to a lesser extent the first and fourth quarters of the fiscal year. Sales in our second and third fiscal quarters, combined, accounted for approximately 92.0% and 87.8% of net sales in fiscal 2009 and 2008, respectively.

Our results of operations may also fluctuate from quarter to quarter as a result of the amount and timing of orders placed and shipped to customers, as well as other factors. The fulfillment of orders can therefore significantly affect results of operations on a quarter-to-quarter basis.

We are currently developing and considering selling products other than those within the karaoke category during the slow season to fulfill the revenue shortfall.

## **INFLATION**

Inflation has not had a significant impact on our operations. We generally have adjusted our prices to track changes in the Consumer Price Index since prices we charge are generally not fixed by long-term contracts.

## **OFF-BALANCE SHEET ARRANGEMENTS**

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

## **CRITICAL ACCOUNTING POLICIES**

We prepared our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. As such, management is required to make certain estimates, judgments and assumptions that it believes are reasonable based on the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the periods presented. The significant accounting policies which management believes are the most critical to aid in fully understanding and evaluating our reported financial results include: accounts receivable allowance for doubtful accounts, reserves on inventory, deferred tax assets and our Macau income tax exemption.

**COLLECTIBILITY OF ACCOUNTS RECEIVABLE.** Our allowance for doubtful accounts is based on management's estimates of the creditworthiness of our customers, current economic conditions and historical information, and, in the opinion of management, is believed to be an amount sufficient to respond to normal business conditions. Management sets 100% reserves for customers in bankruptcy and other reserves based upon historical collection experience. Should business conditions deteriorate or any major customer default on its obligations to the Company, this allowance may need to be significantly increased, which would have a negative impact on operations.

**RESERVES ON INVENTORIES.** We establish a reserve on inventory based on the expected net realizable value of inventory on an item-by-item basis when it is apparent that the expected realizable value of an inventory item falls below its original cost. A charge to cost of sales results when the estimated net realizable value of specific inventory items declines below cost. Management regularly reviews the Company's investment in inventories for such declines in value.

**INCOME TAXES.** Significant management judgment is required in developing our provision for income taxes, including the determination of foreign tax liabilities, deferred tax assets and liabilities and any valuation allowances that might be required against the deferred tax assets. Management evaluates its ability to realize its deferred tax assets on a quarterly basis and adjusts its valuation allowance when it believes that it is more likely than not that the asset will not be realized.

We operate within multiple taxing jurisdictions and are subject to audit in those jurisdictions. Because of the complex issues involved, any claims can require an extended period to resolve. In management's opinion, adequate provisions for potential income taxes in the jurisdiction have been made.

**USE OF OTHER ESTIMATES.** We make other estimates in the ordinary course of business relating to sales returns and allowances, warranty reserves, and reserves for promotional incentives. Historically, past changes to these estimates have not had a material impact on our financial condition. However, circumstances could change which may alter future expectations.

## **ITEM 4T. CONTROLS AND PROCEDURES**

(a) ***Evaluation of Disclosure Controls and Procedures.*** As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based upon this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) ***Changes in Internal Controls.*** We reported certain material weaknesses in our internal controls over financial reporting in our annual report on Form 10-K for the year ended March 31, 2009. The Company is still in the process of addressing these material weaknesses and will continue to update the Exchange as to our remediation progress.

## **PART II - OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

None.

### **ITEM 1A. RISK FACTORS**

#### **RISKS ASSOCIATED WITH OUR BUSINESS**

**CURRENT LEVELS OF SECURITIES AND FINANCIAL MARKET VOLATILITY ARE UNPRECEDENTED.**

The capital and credit markets have been experiencing volatility and disruption for more than 12 months. In recent months, the volatility and disruption has reached unprecedented levels. In some cases, the markets have produced downward pressure on stock prices and credit availability for certain issuers. We believe these credit market disruptions have likely decreased our ability to access debt and equity financing. If current levels of market disruption and volatility continue or worsen, there can be no assurance that we will not experience an adverse effect, which may be material, on our ability to access capital and on our business, financial condition and results of operations.

## **RISKS ASSOCIATED WITH OUR CAPITAL STRUCTURE**

### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

None

### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

We are not currently in default upon any of our senior securities.

### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY-HOLDERS**

None.

### **ITEM 5. OTHER INFORMATION**

None.

### **ITEM 6. EXHIBITS**

Interim Chief Financial Officer

CERTIFICATIONS

I, Anton Handal, certify that:

1. I have reviewed this quarterly report on Form 10-Q of The Singing Machine Company, Inc. for the period ended September 30, 2009;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
