**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1 – BASIS OF PRESENTATION**

**OVERVIEW**

The Singing Machine Company, Inc., a Delaware corporation (the “Company”, “SMC”, “The Singing Machine”) and its three wholly-owned subsidiaries SMC (Comercial Offshore De Macau) Limitada (“Macau Subsidiary”), SMC Logistics, Inc. (“SMC-L”) and SMC-Music, Inc. (“SMC-M”) are primarily engaged in the development, marketing, and sale of consumer karaoke audio systems, accessories, musical instruments and musical recordings. The products are sold by SMC to retailers and distributors for resale to consumers.

**NOTE 2 - LIQUIDITY**

The Company reported net income of approximately \$1,217,000 and \$183,000 for the three and six months ended September 30, 2018, respectively as compared to net income of approximately \$784,000 and \$257,000 for the three and six months ended September 30, 2017. The Company’s net income and cash flow continue to be affected by the Toys R Us bankruptcy as net sales decreased to approximately \$24,305,000 and \$26,141,000 for the three and six months ended September 30, 2018, respectively from approximately \$32,802,000 and \$36,742,000 for the three and six months ended September 30, 2017, respectively. Lost sales from Toys R Us of approximately \$5,394,000 for the three months ended September 30, 2018 and approximately \$6,329,000 for the six months ended September 30, 2018 accounted for approximately 63% and 60%, of the decrease in sales from the three and six months ended September 30, 2017, respectively. There was a decrease in sales of approximately \$1,500,000 to one major customer that only took one holiday promotional item instead of two in the previous year. The remaining decrease was primarily due to the timing of shipments for various customers rolling over to the next quarter. To assist with the Company’s cash requirements during fiscal 2019 our parent company agreed to continue to delay payment of related party trade debt as well as payments due on subordinated debt until the end of peak season when liquidity improves. Our parent company has also agreed to suspend a portion of monthly service and development fees totaling approximately \$99,000 for the six months commencing July 1, 2018 through December 31, 2018. Management believes that it has adequate cash available on its revolving credit facility to meet all obligations for the next twelve months. To assist the Company in remaining compliant with its revolving credit facility covenants, PNC Bank issued a third amendment and waiver in August 2018 to the Revolving Credit Facility and the Security Agreement in effect for fiscal 2019 amending the fixed charge coverage ratio and annual capital expenditure limits. While management continues to assess the long term effect of the Toys R Us bankruptcy, management is confident that the temporary suspension of payments on related party debt, suspension of service and development fees for six months, availability of cash from our revolving credit facility and significant efforts to reduce inventory levels during the current fiscal year will be adequate to meet the company’s liquidity requirements for the next twelve months.

**NOTE 3-SUMMARY OF ACCOUNTING POLICIES**

**PRINCIPLES OF CONSOLIDATION AND BASIS OF PRESENTATION**

The condensed consolidated financial statements include the accounts of the Company and all of its wholly-owned subsidiaries. All inter-company accounts and transactions have been eliminated in the condensed consolidated financial statements. The accompanying unaudited financial statements for the three and six months ended September 30, 2018 and 2017 have been prepared in accordance with generally accepted accounting principles applicable to interim financial information and the requirements of Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States for complete consolidated financial statements. In the opinion of management, such condensed consolidated financial statements include all adjustments (consisting of normal recurring accruals) necessary for the fair presentation of the condensed consolidated financial position and the condensed consolidated results of operations. The condensed consolidated results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. The condensed consolidated balance sheet information as of March 31, 2018 was derived from the audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended March 31, 2018. The interim condensed consolidated financial statements should be read in conjunction with that report.

**USE OF ESTIMATES**

The Singing Machine makes estimates and assumptions in the ordinary course of business relating to sales returns and allowances, inventory reserves, the allowance for doubtful accounts and reserves for promotional incentives that affect the reported amounts of assets and liabilities and of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Future events and their effects cannot be determined with absolute certainty; therefore, the determination of estimates requires the exercise of judgment. Historically, past changes to these estimates have not had a material impact on the Company’s financial condition. However, circumstances could change which may alter future expectations.

**COLLECTIBILITY OF ACCOUNTS RECEIVABLE**

The Singing Machine’s allowance for doubtful accounts is based on management’s estimates of the creditworthiness of its customers, current economic conditions and historical information, and, in the opinion of management, is believed to be in an amount sufficient to respond to normal business conditions. Management sets 100% reserves for customers in bankruptcy and other reserves based upon historical collection experience.

**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The Company is subject to chargebacks from customers for cooperative marketing programs, defective returns, return freight and handling charges that are deducted from open invoices and reduce collectability of open invoices. Should business conditions deteriorate or any major customer default on its obligations to the Company, this allowance may need to be significantly increased, which would have a negative impact on operations.

**FOREIGN CURRENCY TRANSLATION**

The functional currency of the Macau Subsidiary is the Hong Kong dollar. The financial statements of that subsidiary are translated to U.S. dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the year for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions and translations were not material during the periods presented.

**CONCENTRATION OF CREDIT RISK**

At times, the Company maintains cash in United States bank accounts that are in excess of the Federal Deposit Insurance Corporation insured amounts. The Company maintains cash balances in foreign financial institutions. The amounts at foreign financial institutions at September 30, 2018 and March 31, 2018 are approximately \$1,727,000 and \$54,000, respectively.

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of accounts receivable.

**INVENTORY**

Inventories are comprised primarily of electronic karaoke equipment, microphones and accessories, and are stated at the lower of cost or net realizable value, as determined using the first in, first out method. Inventories also include an estimate for the net realizable value of expected future inventory returns due to warranty and allowance programs (See ADOPTION OF NEW ACCOUNTING STANDARDS). As of September 30, 2018 and March 31, 2018 the estimated amounts for these future inventory returns were approximately \$968,000 and \$479,000, respectively. The Company reduces inventory on hand to its net realizable value on an item-by-item basis when it is apparent that the expected realizable value of an inventory item falls below its original cost. A charge to cost of sales results when the estimated net realizable value of specific inventory items declines below cost. Management regularly reviews the Company's investment in inventories for such declines in value. As of September 30, 2018 and March 31, 2018 the Company had inventory reserves of approximately \$198,000 and \$280,000, respectively, for estimated excess and obsolete inventory.

**LONG-LIVED ASSETS**

The Company reviews long-lived assets for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recoverable. If the undiscounted future cash flows attributable to the related assets are less than the carrying amount, the carrying amounts are reduced to fair value and an impairment loss is recognized in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 360-10-05, "Accounting for the Impairment or Disposal of Long-Lived Assets."

**PROPERTY AND EQUIPMENT**

Property and equipment are stated at cost, less accumulated depreciation. Expenditures for repairs and maintenance are charged to expense as incurred. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to their estimated useful lives using accelerated and straight-line methods.

**FAIR VALUE OF FINANCIAL INSTRUMENTS**

We follow FASB ASC 825, "Financial Instruments", which requires disclosures of information about the fair value of certain financial instruments for which it is practicable to estimate that value. For purposes of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

The carrying amounts of the Company's short-term financial instruments, including accounts receivable, accounts payable, accrued expenses, refunds due to customers and due to/from related parties approximates fair value due to the relatively short period to maturity for these instruments. The carrying amounts on the bank term note payable, the subordinated debt to Starlight Marketing Development, Ltd. (related party) and capital leases approximate fair value due to the relatively short period to maturity and related interest accrued at a rate similar to market rates. The carrying amounts on the revolving line of credit approximates fair value due the relatively short period to maturity and related interest accrued at market rates.

**REVENUE RECOGNITION AND RESERVE FOR SALES RETURNS**

The Company recognizes revenue in accordance with FASB ASC 606, "Revenue from Contracts with Customers" (See ADOPTION OF NEW ACCOUNTING STANDARDS). The Company's contracts with customers consist of one performance obligation (the sale of the Company's products). Revenue is recognized when the goods are delivered and control of the goods sold is transferred to the customer. The Company's contracts have no financing elements, payment terms are less than 120 days and have no further contract asset or liability obligations once control of goods is transferred to the customer. Revenue is recorded in the amount of consideration the Company expects to receive for the sale of these goods.

**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Costs incurred in fulfilling contracts with customers include administrative costs associated with the procurement of goods which are included in general and administrative expenses, in-bound freight costs which are included in the cost of goods sold and accrued sales representative commissions which are included in selling expenses in the accompanying condensed consolidated statements of income. The Company disaggregates revenues by major geographic region as most of its revenue is generated by the sales of karaoke hardware and the Company has no other material business segments (See NOTE 10).

The Company generally does not allow products to be returned other than return allowance programs for goods returned to the customer for various reasons and accordingly records a sales return reserve based on historic return amounts, specific events as identified and management estimates.

The Company's reserve for sales returns were approximately \$1,467,000 and \$726,000 as of September 30, 2018 and March 31, 2018, respectively.

**SHIPPING AND HANDLING COSTS**

Shipping and handling costs are performed by both the Company and third party logistics companies. Shipping and handling activities are performed before the customer obtains control of the goods sold to them and are considered activities to fulfill the Company's promise to transfer the goods. These expenses are classified as a component of selling expenses in the accompanying condensed consolidated statements of operations.

**STOCK BASED COMPENSATION**

The Company follows the provisions of the FASB ASC 718-20, "Compensation – Stock Compensation Awards Classified as Equity". ASC 718-20 requires all share-based payments to employees including grants of employee stock options, be measured at fair value and expensed in the condensed consolidated statements of income over the service period (generally the vesting period). The Company uses the Black-Scholes option valuation model to value stock options.

**ADVERTISING**

Costs incurred for producing and publishing advertising of the Company are charged to operations the first time the advertising takes place. The Company has entered into cooperative advertising agreements with its major customers that specifically indicated that the customer has to spend the cooperative advertising fund upon the occurrence of mutually agreed events. The percentage of the cooperative advertising allowance ranges from 1% to 13% of the purchase. The customers have to advertise the Company's products in the customer's catalog, local newspaper and other advertising media. The customer must submit the proof of the performance (such as a copy of the advertising showing the Company's products) to the Company to request for the allowance. The customer does not have the ability to spend the allowance at their discretion. The Company believes that the identifiable benefit from the cooperative advertising program and the fair value of the advertising benefit is equal or greater than the cooperative advertising expense. Advertising expense for the three months ended September 30, 2018 and 2017 was approximately \$1,280,000 and \$1,388,000, respectively. Advertising expense for the six months ended September 30, 2018 and 2017 approximately was \$1,549,000 and \$1,624,000, respectively. As of September 30, 2018 and March 31, 2018 there was an accrual for cooperative advertising allowances of \$755,000 and \$207,000, respectively. These amounts were a component of accrued expenses in the condensed consolidated balance sheets.

**RESEARCH AND DEVELOPMENT COSTS**

Research and development costs are charged to results of operations as incurred. These expenses are shown as a component of general and administrative expenses in the condensed consolidated statements of operations. For the three months ended September 30, 2018 and 2017, these amounts totaled approximately \$21,000 and \$39,000, respectively. For the six months ended September 30, 2018 and 2017, these amounts totaled \$37,000 and \$98,000 respectively.

**INCOME TAXES**

The Company follows the provisions of FASB ASC 740 "Accounting for Income Taxes." Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. If it is more likely than not that some portion of a deferred tax asset will not be realized, a valuation allowance is recognized.

The Company analyzes its deferred tax assets and liabilities at the end of each interim period and, based on management's best estimate of its full year effective tax rate, recognizes cumulative adjustments to its deferred tax assets and liabilities. On December 22, 2017 the Tax Act was enacted which reduced the U.S. federal corporate tax rate from 35% to 21% effective January 1, 2018. As a result of the Tax Act we have estimated that our effective tax rate for the fiscal year ending March 31, 2019 will be approximately 23%. The effective tax rate for the full year ended March 31, 2018 was approximately 28%. As of September 30, 2018 and March 31, 2018, The Singing Machine had gross deferred tax assets of approximately \$882,000 and \$937,000, respectively. The Company recorded an income tax provision of approximately \$379,000 and \$422,000 for the three months ended September 30, 2018 and 2017, respectively. The Company recorded an income tax provision of approximately \$55,000 and \$140,000 for the six months ended September 30, 2018 and 2017, respectively.

**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The Company recognizes a liability for uncertain tax positions. An uncertain tax position is defined as a position in a previously filed tax return or a position expected to be taken in a future tax return that is not based on clear and unambiguous tax law and which is reflected in measuring current or deferred income tax assets and liabilities for interim or annual periods. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The Company measures the tax benefits recognized based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate resolution. As of September 30, 2018, there were no uncertain tax positions that resulted in any adjustment to the Company's provision for income taxes. The Company recognizes interest and penalties related to unrecognized tax benefits in its provision for income taxes. The Company currently has no liabilities recorded for accrued interest or penalties related to uncertain tax provisions.

As of September 30, 2018, the Company is subject to U.S. Federal income tax examinations for the tax years ended March 31, 2016 and subsequent years.

**COMPUTATION OF EARNINGS PER SHARE**

Income per common share is computed by dividing net income by the weighted average of common shares outstanding during the period. As of September 30, 2018 and 2017 total potential dilutive shares from common stock options amounted to approximately 2,350,000 and 2,450,000 shares, respectively. These shares were included in the computation of diluted earnings per share for the three and six months ended September 30, 2018 and 2017.

**ADOPTION OF NEW ACCOUNTING STANDARDS**

In May 2014, the FASB issued ASU 2014-09, Topic 606, "Revenue from Contracts with Customers", ("ASC 606") which outlines a single comprehensive model for companies to use when accounting for revenue arising from contracts with customers. The core principle of the revenue recognition model is that an entity recognizes revenue to depict the transfer of goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Company adopted ASC 606 on April 1, 2018 using the full retrospective approach with the application of the standard reflected in the prior year reporting period. After examining the Company's performance obligations in its contracts, it was determined that there was no effect to the company's retained earnings or net income during the periods reported. Management determined that most of the Company's customers (other than distributors) have "customer acceptance rights" in that customers are allowed to return defective goods within a specified period after shipment (generally between 6 and 9 months) after goods have been shipped. Prior to adoption of ASC 606, the Company recognized a liability for the estimated net amount of sales less the estimated net realizable value of expected returned goods at the time of sale. The liability for estimated return goods was approximately \$247,000 at March 31, 2018 and was reported in warranty provisions on the consolidated balance sheet. The adoption of ASC 606 required that the net realizable value of estimated return goods be disaggregated from estimated sales return reserves and reported as a current asset and the amount of estimated sales amount to be credited to customers be recognized in current liabilities on the consolidated balance sheet. As a result of the adoption of ASC 606 the net realizable value of estimated returned goods of approximately \$479,000 was reclassified to inventory on April 1, 2018 on the condensed consolidated balance sheet. Estimated sales amounts to be credited to customers due to inventory warranty and allowance programs of approximately \$726,000 was reported in reserve for sales returns on the consolidated balance sheet on April 1, 2018. (Refer to Note 4 - INVENTORY and Note 12 - RESERVE FOR SALES RETURNS)

The following table shows the financial line items that were affected by the adoption of ASC 606:

**RECENT ACCOUNTING PRONOUNCEMENTS**

In February 2016, the FASB issued ASU 2016-02, Topic 842, as amended, "Leases". The ASU requires lessees to recognize leases on the balance sheet and disclose key information about leasing arrangements. The new standard establishes a right-of-use model (ROU) that requires a lessee to recognize a ROU asset and lease liability on the balance sheet for all leases with a term longer than twelve months. Leases will be classified as finance or operating, with classification affecting the pattern and classification of expense recognition in the income statement.

**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The new standard is effective for us on April 1, 2019 with early adoption permitted. We expect to adopt the new standard on its effective date. A modified retrospective approach is required, applying the new standard to all leases existing at the date of initial application. An entity may choose to use either (1) its effective date or (2) the beginning of the earliest comparative period presented in the financial statements as its date of initial application.

We expect that this statement will have a material effect on our financial statements. While we continue to assess all of the effects of adoption, we currently believe the most significant affects relate to the recognition of new ROU assets and lease liabilities on our balance sheet for our operating leases and providing significant new disclosures about our leasing activities.

**NOTE 6 – BANK FINANCING**

**Revolving Credit Facility**

On June 22, 2017, the Company renewed the existing revolving credit facility (the “Revolving Credit Facility”) with PNC Bank, National Association (“PNC”) for an additional three years expiring on July 15, 2020. The outstanding loan balance cannot exceed \$15.0 million during peak selling season between August 1 and December 31 (with the ability of the Company to request an additional \$5.0 million of availability during peak selling season if required) and is reduced to a maximum of \$7.5 million between January 1 and July 31. At September 30, 2018 and March 31, 2018, the outstanding balance was approximately \$6,878,000 and \$0, respectively, on the Revolving Credit Facility. Usage under the Revolving Credit Facility shall not exceed the sum of the following (the “Borrowing Base”):

- Up to 85% of the company’s eligible domestic and Canadian accounts receivable and up to 90% of eligible foreign credit insured accounts aged less than 60 days past due (not to exceed 90 days from invoice date, cross aged on the basis of 50% or more past due with certain specific accounts qualifying for up to 120 days from invoice date not to exceed 30 days from the due date; plus
- Up to the lesser of (a) 60% of the cost of eligible inventory or (b) 85% of net orderly liquidation value percentage of eligible inventory (annual inventory appraisals required); minus
- Applicable reserves including a dilution reserve equal to 100% of the Company’s advertising and return accrual reserves. Dilution reserve not to exceed availability generated from eligible accounts receivable.

**THE SINGING MACHINE COMPANY, INC AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The Revolving Credit Facility includes the following sub-limits:

- Letters of Credit to be issued limited to \$3,000,000.
- Inventory availability limited to \$5,000,000.
- \$500,000 eligible in-transit inventory sublimit within the \$5,000,000 total inventory.
- Mandatory pay-down to \$1,000,000 (excluding letters of credit) for any 30 consecutive days between February 1 and April 30.

The Revolving Credit Facility must comply with the following quarterly financial covenants to avoid default:

- Fixed charge coverage ratio test of 1.1:1 times measured on a rolling four quarter basis, defined as EBITDA less non-financed capital expenditures, cash dividends and distributions paid and cash taxes paid divided by the sum of interest and principal on all indebtedness.
- Capital expenditures limited to \$300,000 per year.

On August 2, 2018, PNC issued a third amendment and waiver (“third amendment”) to the Revolving Credit Facility, the Security Agreement in effect for fiscal 2019 amending the agreements as follows:

- For purposes of calculating the fixed charge coverage ratio only, a \$550,000 one-time credit for bad debt expense relating to the Toys R Us bankruptcy is allowed to be taken as of March 31, 2018.
- The capital expenditures limit is increased to \$375,000 for fiscal 2019 and for each fiscal year thereafter.

The third amendment waived existing violations of the fixed charge coverage ratio of 1.1:1 and capital expenditures in excess of the \$300,000 limitation per fiscal year. The Company incurred an amendment fee of \$10,000 upon execution of the agreement.

Interest on the Revolving Line of Credit is accrued at .75% per annum over PNC’s announced prime rate with an option for the Company to elect the 1, 2 or 3 month fully absorbed PNC LIBOR Rate plus 2.75% per annum with a default rate of 2% over the applicable rate. There is an unused facility fee equal to .375% per annum on the unused portion of the Revolving Credit Facility which will be calculated on the basis of a 360 day year for the actual number of days elapsed and will be payable quarterly in arrears. During the three months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$50,000 and \$74,000, respectively, on amounts borrowed against the Revolving Credit Facility. During the six month periods ended September 30, 2018 and 2017, the Company incurred interest expense of approximately \$55,000 and \$74,000 respectively on amounts borrowed against the Revolving Credit Facility. During the three month periods ended September 30, 2018 and 2017, the Company incurred an unused facility fee of approximately \$8,000 and \$7,000, respectively on the unused portion of the Revolving Credit Facility. During the six month periods ended September 30, 2018 and 2017, the Company incurred an unused facility fee of approximately \$15,000 and \$14,000 respectively on the unused portion of the Revolving Credit Facility.

The Revolving Line of Credit is secured by first priority security interests in all of the named borrowers’ tangible and intangible assets as well as first priority security interests of 100% of member or ownership interests of any of its domestic existing or newly formed subsidiaries and first priority lien on up to 65% of the borrowers’ domestic subsidiary’s existing or subsequently formed or acquired foreign subsidiaries. The Revolving Credit Facility is also secured by a related-party debt subordination agreement with Starlight Marketing Development, Ltd. in the amount of approximately \$815,000. Costs associated with renewal of the Revolving Credit Facility of approximately \$40,000 were deferred and are being amortized over the term of the agreement. During the three months ended September 30, 2018 and 2017 the Company incurred amortization expense of approximately \$4,000 and \$3,000, respectively, associated with the amortization of deferred financing costs from the original Revolving Credit Facility. During the six month periods ended September 30, 2018 and 2017, the Company incurred amortization expense of approximately \$7,000 and \$25,000, respectively.

**Term Note Payable**

In connection with the amendments above and in addition to the maximum availability limits on the Revolving Line of Credit, the agreement also includes a two-year term note (“Term Note”) in the amount of \$1,000,000 the proceeds of which were used to pay down a portion of the subordinated related party debt of approximately \$1,924,000 in June 2017. The term note bears interest at 1.75% per annum over PNC’s announced prime rate or 1, 2, or 3 month PNC LIBOR Rate plus 3.75%. The term note is payable in quarterly installments of \$125,000 plus accrued interest. The outstanding balance on the Term Note was \$375,000 and \$625,000 as of September 30, 2018 and March 31, 2018, respectively. During the three months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$11,000 and \$7,000, respectively. During the six months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$20,000 and \$7,000 respectively.

The subordination agreement has been amended reducing the amount of related party subordinated debt to the remaining amount due of approximately \$815,000. Provision has also been made to allow repayment of the remaining \$815,000 in quarterly installments of \$123,000 including interest accrued at 6% per annum that commenced on September 30, 2017. Payments of \$123,000 are only permitted upon receipt of the Company’s quarterly compliance certificate; the Company having met the mandatory pay-down of the Revolving Credit Facility to \$1,000,000 and average excess availability for the prior 30 days (after subtraction of third party trade payables 30 days or more past due) of no less than \$1,000,000 after giving effect to the payment. As part of the Conditions to Installment Payment of the subordinated debt, payments not made under this note that cannot be made as a result of the foregoing prohibition shall not be deemed an Event of Default and can be made as soon as the Company is able to demonstrate that it meets the liquidity requirements defined above. The installment payments of \$123,000 due on December 31, 2017, March 31, 2018, June 30, 2018 and September 30, 2018 were not made due to the Toys R Us prior year bankruptcy’s

unfavorable effect on cash flow. During the three months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$7,000 and \$14,000, respectively on the related party subordinated debt. During the six months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$16,000 and \$14,000, respectively on the related party subordinated debt.

**NOTE 7 - COMMITMENTS AND CONTINGENCIES**

**LEGAL MATTERS**

Management is not aware of any legal proceedings other than matters that arise in the ordinary course of business.

**OPERATING LEASES**

The Company has operating lease agreements for office and warehouse facilities in Fort Lauderdale, Florida; Ontario, California; and Macau, China expiring at varying dates. Rent expense for the three months ended September 30, 2018 and 2017 was approximately \$175,000 and \$161,000, respectively. Rent expense for the six months ended September 30, 2018 and 2017 was approximately \$350,000 and \$323,000, respectively. In addition, the Company maintains various warehouse equipment and office equipment operating leases.

Future minimum lease payments under property and equipment leases with terms exceeding one year as of September 30, 2018 are as follows:

**NOTE 8 - STOCK OPTIONS**

During the six months ended September 30, 2018, the Company issued 100,000 stock options to directors as compensation for their service.

Employee stock option compensation expense includes the estimated fair value of options granted amortized on a straight-line basis over the requisite service period for the entire portion of the award. For the three months ended September 30, 2018 and 2017, stock option expense was approximately \$10,000 and \$48,000, respectively. For the six months ended September 30, 2018 and 2017, the stock option expense was approximately \$21,000 and \$103,000, respectively.

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes option-pricing model with the assumptions outlined below. The expected volatility is based upon historical volatility of our stock and other contributing factors. The expected term is based upon observation of actual time elapsed between date of grant and exercise of options for all employees.

- For the six months ended September 30, 2018: expected dividend yield of 0%, risk-free interest rate of 2.08%, volatility of 216.3% and an expected term of three years.

A summary of stock option activity for the six months ended September 30, 2018 is summarized below:

**NOTE 11 –RELATED PARTY TRANSACTIONS**

**DUE TO/FROM RELATED PARTIES**

On September 30, 2018 and March 31, 2018, in the aggregate the Company had approximately \$2,019,000 and \$1,157,000, respectively, due from related parties for goods and services sold to these companies.

On September 30, 2018 and March 31, 2018, the Company had amounts due to related parties in the amounts of approximately \$631,000 and \$414,000 for operating and administrative services and engineering fees provided to the Company by these related parties.

**SUBORDINATED DEBT**

In connection with the Revolving Credit Facility the Company was required to subordinate related party debt to Starlight Marketing Development, Ltd. (“subordinated debt”) in the amount of \$1,924,431. The Revolving Credit Facility renewal agreement included a Term Note in the amount of \$1,000,000, the proceeds of which were used to pay down a portion of the subordinated debt. The remaining subordinated debt of \$924,431 bears interest at 6% and was scheduled to be paid in quarterly installments of \$123,000 which included interest commencing September 30, 2017. Payments of \$123,000 are only permitted upon receipt of the Company’s quarterly compliance certificate; the Company having met the mandatory pay-down of the Revolving Credit Facility to \$1,000,000 and average excess availability for the prior 30 days (after subtraction of third party trade payables 30 days or more past due) of no less than \$1,000,000 after giving effect to the payment. As part of the Conditions to Installment Payment of the subordinated debt, payments not made under this note that cannot be made as a result of the foregoing prohibition shall not be deemed an Event of Default and can be made as soon as the Company is able to demonstrate that it meets the liquidity requirements defined above. The installment payments of \$123,000 due on December 31, 2017, March 31, 2018, June 30, 2018 and September 30, 2018 were not made due to the Toys R Us prior year bankruptcy’s unfavorable effect on cash flow. As of September 30, and March 31, 2018 the amounts due on the subordinated debt were approximately \$815,000. During the three months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$7,000 and \$14,000 respectively on the related party subordinated debt. During the six months ended September 30, 2018 and 2017 the Company incurred interest expense of approximately \$16,000 and \$14,000 respectively on the related party subordinated debt.

**TRADE**

During the three months ended September 30, 2018 and September 30, 2017 the Company sold approximately \$1,150,000 and \$1,151,000, respectively to Winglight Pacific, Ltd. (“Winglight”), a related party, at a discounted price, similar to prices granted to major direct import customers shipped internationally with freight prepaid. The average gross profit margin on sales to Winglight for the three months ended for both September 30, 2018 and September 30, 2017 was 21.9%, respectively. During the six months ended September 30, 2018 and September 30, 2017 the Company sold approximately \$1,150,000 and \$1,462,000, respectively to Winglight at a discounted price, similar to prices granted to major direct import customers shipped internationally with freight prepaid. The average gross profit margin on sales to Winglight for the six months ended September 30, 2018 and September 30, 2017 was 30.1% and 21.8%, respectively. The product was shipped to Cosmo Communications of Canada (“Cosmo”), another related company and the Company’s primary distributor of its products to Canada. These amounts were included as a component of net sales in the accompanying condensed consolidated statements of income.

The Company incurred service expenses from Starlight Electronics Co, Ltd, (“SLE”) a related party. The services from SLE for the three month periods ended September 30, 2018 and 2017 were approximately \$85,000 and \$96,000 respectively. The services from SLE for the six month periods ended September 30, 2018 and 2017 were approximately \$181,000 and \$129,000 respectively. These amounts were included as a component of general and administrative expenses in the accompanying condensed consolidated statements of operations.

The Company incurred service expenses from Merrygain Holding Co. Ltd, (“Merrygain”) a related party. The services from Merrygain for the three months ended September 30, 2018 and 2017 were approximately \$0 and \$38,000, respectively. The services from Merrygain for the six months ended September 30, 2018 and 2017 were approximately \$38,000 and \$76,000, respectively. These amounts were included as a component of general and administrative expenses in the accompanying condensed consolidated statements of operations.

**NOTE 12 – RESERVE FOR SALES RETURNS**

A return program for defective goods is negotiated with each of our wholesale customers on a year-to-year basis. Customers are either allowed to return defective goods within a specified period of time after shipment (between 6 and 9 months) or granted a “defective allowance” consisting of a fixed percentage (between 1% and 5%) off of invoice price in lieu of returning defective products. The Company does make occasional exceptions to this return policy and accordingly records a sales return reserve based on historic return amounts, specific exceptions as identified and management estimates.

The Company records a sales reserve for its return goods programs at the time of sale for estimated sales returns that may occur. The liability for defective goods is included in the reserve for sales returns on the condensed consolidated balance sheets.

Changes in the Company’s reserve for sales returns are presented in the following table:

	Six Months Ended	
	September 30, 2018	September 30, 2017
Reserve for sales returns at beginning of the year	\$ 726,000	\$ 600,000 *
Provision for estimated sales returns	1,883,366	3,011,677
Sales returns received	(1,142,739)	(1,106,967)
Reserve for sales returns at end of the period	\$ 1,466,627	\$ 2,504,710

\* The reserve for sales returns at the beginning of the period ended September 30, 2017 has been adjusted to reflect the full retrospective adoption of ASC 606 effective April 1, 2018

**NOTE 13 – REFUNDS DUE TO CUSTOMERS**

Due to the seasonality of the business and length of time customers are given to return defective product, it is not uncommon for customers to accumulate credits from the Company’s sales and allowance and cooperative advertising programs that are in excess of unpaid invoices in accounts receivable. All credit balances in customers’ accounts receivable are reclassified to refunds due to customers in current liabilities on the Condensed Consolidated Balance Sheets. Customer requests for payment of a credit balance are reclassified from refunds due to customers to accounts payable on the Consolidated Balance Sheets. When new invoices are processed prior to settlement of the credit balance and the customer accepts settlement of open credits with new invoices, then the excess of new invoices over credits are netted in accounts receivable. As of September 30, 2018 and March 31, 2018, refunds due to customers reclassified from accounts receivable were approximately \$11,000 and \$445,000, respectively.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 14 - EMPLOYEE BENEFIT PLANS**

The Company has a 401(k) plan for its employees to which the Company makes contributions at rates dependent on the level of each employee's contributions. Contributions made by the Company are limited to the maximum allowable for federal income tax purposes. The amounts charged to operations for contributions to this plan and administrative costs during the three months ended September 30, 2018 and 2017 totaled approximately \$17,000 and \$14,000, respectively. The amounts charged to operations for contributions to this plan and administrative costs during the six months ended September 30, 2018 and 2017 totaled approximately \$33,000 and \$24,000, respectively. The amounts are included as a component of general and administrative expense in the accompanying condensed consolidated statements of income. The Company does not provide any post-employment benefits to retirees.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this quarterly report. This document contains certain forward-looking statements including, among others, anticipated trends in our financial condition and results of operations and our business strategy. (See Part II, Item 1A, "Risk Factors "). These forward-looking statements are based largely on our current expectations and are subject to a number of risks and uncertainties. Actual results could differ materially from these forward-looking statements.

Statements included in this quarterly report that do not relate to present or historical conditions are called "forward-looking statements." Such forward-looking statements involve known and unknown risks and uncertainties and other factors that could cause actual results or outcomes to differ materially from those expressed in, or implied by, the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions. Words such as "believes," "forecasts," "intends," "possible," "estimates," "anticipates," "expects," "plans," "should," "could," "will," and similar expressions are intended to identify forward-looking statements. Our ability to predict or project future results or the effect of events on our operating results is inherently uncertain. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved.

Important factors to consider in evaluating such forward-looking statements include, but are not limited to: (i) changes in external factors or in our internal budgeting process which might impact trends in our results of operations; (ii) unanticipated working capital or other cash requirements; (iii) changes in our business strategy or an inability to execute our strategy due to unanticipated changes in the industries in which we operate; and (iv) the effects of adverse general economic conditions, both within the United States and globally, (v) vendor price increases and decreased margins due to competitive pricing during the economic downturn (vi) various competitive market factors that may prevent us from competing successfully in the marketplace and (vii) other factors described in the risk factors section of our Annual Report on Form 10-K, this Quarterly Report on 10-Q, or in our other filings made with the SEC.

Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

### OVERVIEW

The Singing Machine Company, Inc., a Delaware corporation (the "Company", "SMC", "The Singing Machine") and its three wholly-owned subsidiaries SMC (Comercial Offshore De Macau) Limitada ("Macau Subsidiary"), SMC Logistics, Inc. ("SMC-L") and SMC-Music, Inc. ("SMC-M") are primarily engaged in the development, marketing, and sale of consumer karaoke audio systems, accessories, musical instruments and musical recordings. The products are sold by SMC to retailers and distributors for resale to consumers.

Our products are sold throughout North America and Europe primarily through major mass merchandisers and warehouse clubs, on-line retailers and to a lesser extent department stores, lifestyle merchants, direct mail catalogs and showrooms, music and record stores, and specialty stores.

Representative customers include Amazon, Best Buy, BJ's Wholesale, Costco, Sam's Club, Target, and Wal-Mart. Our business has historically been subject to seasonal fluctuations causing our revenues to vary from quarter to quarter and between the same periods in different fiscal years. Our products are manufactured for the most part based on the purchase indications of our customers. We are uncertain of how significantly our business would be harmed by a prolonged economic recession, but we anticipate that continued contraction of consumer spending would negatively affect our revenues and profit margins.

The Company's stock trades on the OTCQX Best Market under the ticker symbol "SMDM".

### RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain items related to our consolidated statements of operations as a percentage of net sales for the three and six months ended September 30, 2018 and 2017:

**QUARTER ENDED SEPTEMBER 30, 2018 COMPARED TO THE QUARTER ENDED SEPTEMBER 30, 2017**

**NET SALES**

Net sales for the quarter ended September 30, 2018 decreased to approximately \$24,305,000 from approximately \$32,802,000 a decrease of approximately \$8,497,000 (26% decrease) as compared to the same period ended September 30, 2017. The Company lost approximately \$5,400,000 in sales during the three months ended September 30, 2018 due to the bankruptcy of Toys R Us in fiscal 2018 which accounted for approximately 64% of the decrease. The remaining decrease was primarily due to the loss of one holiday promotional item for a major customer of approximately \$1,500,000 with the remaining variance primarily due to the timing of shipments to several customers moving into the next quarter.

**GROSS PROFIT**

Gross profit for the quarter ended September 30, 2018 decreased to approximately \$5,207,000 from \$7,738,000 a decrease of approximately \$2,531,000 as compared to the same period in the prior year. Approximately 80% of the decrease is primarily due to the decrease in net sales explained above with the remaining 20% due to decreased gross profit margin.

Gross profit margin for the three months ended September 30, 2018 was 21.4% compared to 23.6% for the three month period ended September 30, 2017, a decrease of 2.2 margin points. The profit margin decrease was primarily due to the loss of approximately \$5,200,000 in sales of high margin yield products to Toys R Us due to bankruptcy.

**OPERATING EXPENSES**

For the quarter ended September 30, 2018, total operating expenses decreased to approximately \$3,535,000. This represents a decrease of approximately \$2,897,000 from the prior year period's quarter ended total operating expenses of approximately \$6,432,000. During the three months ended September 30, 2018, there was a recovery from the Toys R Us bankruptcy of approximately \$233,000 compared to the three months ended September 30, 2017 when the company recorded a charge to bad debt expense of approximately \$2,100,000 due to the Toys R Us bankruptcy filing. This \$2,333,000 favorable variance in bad debt expense accounted for approximately 80% of the decrease in operating expenses. The remaining decrease was due primarily to decreases in selling and general and administrative expenses related to variable expenses associated with the decrease in net sales.

Selling expenses decreased approximately \$366,000 for the quarter ended September 30, 2018 compared to the quarter ended September 30,

2017 primarily due to decreases in commissions and advertising allowance of approximately \$452,000 associated with the decrease in net sales. This decrease in selling expense was offset by an increase in discretionary marketing expenses of approximately \$103,000.

General and administrative expenses decreased approximately \$308,000 for the quarter ended September 30, 2018 compared to the quarter ended September 30, 2017. The cost of the logistics operation decreased by approximately \$111,000 during the three months ended September 30, 2018 primarily due to the increase in services being provided to third parties and reduced overhead costs. There were no related party licensing fees for the use of tooling for the pedestal models for the three months ended September 30, 2018 compared to the three months ended September 30, 2017 when the company incurred approximately \$116,000 in licensing costs for this expense. The remaining variance was primarily due to decreases in other variable expenses associated with the decrease in net sales.

### **INCOME FROM OPERATIONS**

Income from operations increased approximately \$367,000 this quarter, to \$1,672,000 for the three months ended September 30, 2018 compared to income from operations of \$1,305,000 for the same period ended September 30, 2017. There was an improvement in bad debt expense with the recovery of approximately \$233,000 from the Toys R Us bankruptcy for the three months ended September 30, 2018 compared to the write off of bad debt during the same three months of the prior year of approximately \$2,100,000 due to the Toys R Us bankruptcy filing. There were decreases in operating expenses of approximately \$563,000 as discussed in Operating Expenses above. These favorable variances to income from operations of approximately \$2,897,000 were offset by approximately decrease of approximately \$2,531,000 in gross margin as discussed in Gross Profit above.

### **OTHER EXPENSES**

Other expenses decreased to approximately \$76,000 from \$99,000 for the same period a year ago. The decrease was due to a decrease in interest expense due primarily to reduced borrowings on the Revolving Credit Facility during the three months ended September 30, 2018 compared to the three month period ended September 30, 2017.

### **INCOME TAXES**

For the three months ended September 30, 2018 and September 30, 2017 the Company recognized an income tax provision of approximately \$379,000 and \$422,000, respectively, due to management's best estimate of the Company's full year effective tax rate of approximately 23% and 35%, respectively, for fiscal year ending March 31, 2019 and fiscal year ended March 31, 2018.

### **NET INCOME**

For the three months ended September 30, 2018 net income increased to approximately \$1,217,000 compared to net income of \$784,000 for the same period a year ago. The Company benefitted from the effective income tax rate decrease due to the Tax Cuts and Jobs Act which contributed approximately \$43,000 to net income with the remaining increase of \$476,000 explained in Income From Operations and Other Expenses above.

## **SIX MONTHS ENDED SEPTEMBER 30, 2018 COMPARED TO THE SIX MONTHS ENDED SEPTEMBER 30, 2017**

### **NET SALES**

Net sales for the quarter ended September 30, 2018 decreased to approximately \$26,141,000 from \$36,742,000 a decrease of approximately \$10,601,000 (29% decrease) as compared to the same period ended September 30, 2017. The Company lost approximately \$6,300,000 in sales during the six months ended September 30, 2018 due to the bankruptcy of Toys R Us in fiscal 2018 which accounted for approximately 59% of the decrease. The remaining decrease was primarily due to the loss of one holiday promotional item for a major customer of approximately \$1,500,000 with the remaining variance primarily due to the timing of shipments to several customers moving into the next quarter.

### **GROSS PROFIT**

Gross profit for the six months ended September 30, 2018 decreased to approximately \$5,598,000 from approximately \$8,817,000 a decrease of approximately \$3,219,000 as compared to the same period in the prior year. Approximately 79% of the decrease is primarily due to the decrease in net sales explained above with the remaining 21% due to decreased gross profit margin.

Gross profit margin for the six months ended September 30, 2018 was 21.4% compared to 24.0% for the six months ended September 30, 2017, a decrease of 2.6 margin points. The profit margin decrease was primarily due to the loss of approximately \$6,300,000 in sales of high margin yield products to Toys R Us due to bankruptcy.

### **OPERATING EXPENSES**

For the six months ended September 30, 2018, total operating expenses decreased to approximately \$5,258,000. This represents a decrease of approximately \$3,041,000 from the prior year period's six months ended total operating expenses of \$8,299,000. During the six months ended September 30, 2018, there was a recovery from the Toys R Us bankruptcy of approximately \$233,000 compared to the six months ended September 30, 2017 when the company recorded a charge to bad debt expense of approximately \$2,100,000 due to the Toys R Us bankruptcy filing. This \$2,333,000 favorable variance in bad debt expense accounted for approximately 72% of the decrease in operating expenses. The remaining decrease was due primarily to decreases in selling and general and administrative expenses related to variable expenses associated with the decrease in net sales.

Selling expenses decreased approximately \$385,000 for the six months ended September 30, 2018 compared to the six months ended September 30, 2017 primarily due to decreases in commissions and advertising allowance of approximately \$539,000 associated with the decrease in net sales. This decrease in selling expense was offset by an increase in discretionary marketing expenses of approximately \$158,000.

General and administrative expenses decreased approximately \$333,000 for the six months ended September 30, 2018 compared to the six months ended September 30, 2017. The cost of the logistics operation decreased by approximately \$148,000 during the six months ended September 30, 2018 primarily due to the increase in services being provided to third parties and reduced overhead costs. There were no related party licensing fees for the use of tooling for the pedestal models for the six months ended September 30, 2018 compared to the six months ended September 30, 2017 when the company incurred approximately \$116,000 in licensing costs for this expense. The remaining decrease was primarily due to variable expenses associated with the reduction in sales.

### **INCOME FROM OPERATIONS**

Income from operations decreased approximately \$178,000, to approximately \$340,000 for the six months ended September 30, 2018 compared to income from operations of \$518,000 for the same period ended September 30, 2017. There was an improvement in bad debt expense with the recovery of approximately \$233,000 from the Toys R Us bankruptcy for the three months ended September 30, 2018 compared to the charge to bad debt expense during the same three months of the prior year of approximately \$2,100,000 due to the Toys R Us bankruptcy. There were decreases in operating expenses of approximately \$708,000 as discussed in Operating Expenses above. These favorable variances to income from operations of approximately \$3,041,000 were offset by a decrease of approximately \$3,219,000 in gross margin as discussed in Gross Profit above.

### **OTHER EXPENSES**

For the six months ended September 30, 2018 other expenses decreased by approximately \$18,000 compared to the same period a year ago due to a decrease in amortization of deferred financing costs related to the renewal of the Revolving Credit Facility.

### **INCOME TAXES**

For the six months ended September 30, 2018 and September 30, 2017 the Company recognized an income tax provision of approximately \$55,000 and approximately \$140,000, respectively, due to management's best estimate of the Company's full year effective tax rate of approximately 23% and 35%, respectively, for the fiscal year ending March 31, 2018 and the fiscal year ended March 31, 2017.

### **NET INCOME**

For the six months ended September 30, 2018 net income decreased to approximately \$183,000 compared to net income of \$257,000 for the same period a year ago. This decrease is explained in Income From Operations, Other Expenses and Income Taxes above.

### **LIQUIDITY AND CAPITAL RESOURCES**

As of September 30, 2018, Singing Machine had cash on hand of approximately \$1,755,000 as compared to cash on hand of approximately \$813,000 on September 30, 2017. We had working capital of approximately \$6,502,000 as of September 30, 2018.

Net cash used in operating activities was approximately \$5,400,000 for the six months ended September 30, 2018, as compared to approximately \$13,042,000 used in operating activities during the same period a year ago. During the six months ended September 30, 2018 the Company experienced an increase in inventory of approximately \$4,276,000 primarily due to inventory requirements for the upcoming holiday season. Accounts receivable also increased by approximately \$19,152,000 due primarily to seasonal increases in customer shipments during the second quarter ended September 30, 2018. These uses of operating cash were offset by operating activities that provided cash including an increase in accounts payable (primarily inventory vendors) of approximately \$17,040,000 and a seasonal increase in accrued expenses of approximately \$831,000 which were both commensurate with the increase in seasonal sales. These activities accounted for approximately 98% of the cash used in operations with the remaining 2% due to seasonal changes in other operating assets and liabilities.

Net cash used in operating activities was approximately \$13,042,000 for the six months ended September 30, 2017. During the six months ended September 30, 2017 the Company experienced an increase in inventory of approximately \$9,602,000 primarily due to inventory requirements for the upcoming holiday season. Accounts receivable also increased by approximately \$27,286,000 (excluding approximately \$2,000,000 of potentially uncollectible past due receivables due to the Toys R US bankruptcy filing) due primarily to seasonal increases in customer shipments during the second quarter ended September 30, 2017. These uses of operating cash were offset by operating activities that provided cash including an increase in accounts payable (primarily inventory vendors) of approximately \$20,817,000, a seasonal increase in accrued expenses of approximately \$1,329,000 and a seasonal increase in the reserve for sales returns of approximately \$1,905,000 which were all commensurate with the increase in seasonal sales. These activities accounted for approximately 98% of the cash used in operations with the remaining 2% due to seasonal changes in other operating assets and liabilities.

Net cash used by investing activities for the six months ended September 30, 2018 was approximately \$289,000 as compared to approximately \$250,000 used by investing activities for the same period ended a year ago. Investment activity during the six months ended September 30, 2018 consisted of the purchase of molds and tooling and warehouse equipment of approximately \$289,000. Investment activity during the six months ended September 30, 2017 consisted primarily of the purchases of molds and tooling of approximately \$159,000 and office furniture of approximately \$91,000.

Net cash provided by financing activities for the six months ended September 30, 2018 was approximately \$6,632,000 compared to cash provided by financing activities of approximately \$11,274,000 for the same period ended of the prior year. We borrowed approximately \$6,878,000 from our Revolving Credit Facility for working capital and we made payments of \$250,000 on the bank term note.

Net cash provided by financing activities was approximately \$11,274,000 for the six months ended September 30, 2017. During the six months ended September 30, 2017, the Company borrowed approximately \$11,549,000 from the Revolving Credit Facility with PNC Bank which provided most of the working capital for operations during the period. PNC Bank also approved a term note in the amount of \$1,000,000 the proceeds of which were used to pay down subordinated related party debt. The company also made an additional scheduled payment of approximately \$109,000 against the subordinated related party debt from working capital.

As of September 30, 2018, we continued to borrow from our Revolving Credit Facility, which provides for a maximum loan amount of \$15,000,000 during peak selling season (with the ability of the Company to request an additional \$5,000,000 of availability during peak selling season if required) and reduces to \$7,500,000 during the off-peak season. We believe this credit facility will be adequate to maintain and grow our business during the three-year term of the agreement. If we are unable to comply with the financial covenants defined in the financing agreement and default on the credit facility, it may have a material adverse effect on our ability to meet our financial obligations.

The Company reported net income of approximately \$1,217,000 and \$183,000 for the three and six months ended September 30, 2018, respectively as compared to net income of approximately \$784,000 and \$257,000 for the three and six months ended September 30, 2017. The Company's net income and cash flow continue to be affected by the Toys R Us bankruptcy as net sales decreased to approximately \$24,305,000 and \$26,141,000 for the three and six months ended September 30, 2018, respectively from approximately \$32,802,000 and \$36,742,000 for the three and six months ended September 30, 2017, respectively. Lost sales from Toys R Us of approximately \$5,394,000 for the three months ended September 30, 2018 and approximately \$6,329,000 for the six months ended September 30, 2018 accounted for approximately 63% and 60%, of the decrease in sales from the three and six months ended September 30, 2017, respectively. There was a decrease in sales of approximately \$1,500,000 to one major customer that only took one holiday promotional item instead of two in the previous year. The remaining decrease was primarily due to the timing of shipments for various customers rolling over to the next quarter. To assist with the Company's cash requirements during fiscal 2019 our parent company agreed to continue to delay payment of related party trade debt as well as payments due on subordinated debt until the end of peak season when liquidity improves. Our parent company has also agreed to suspend a portion of monthly service and development fees totaling approximately \$99,000 for the six months commencing July 1, 2018 through December 31, 2018. Management believes that it has adequate cash available on its revolving credit facility to meet all obligations for the next twelve months. To assist the Company in remaining compliant with its revolving credit facility covenants, PNC Bank issued a third amendment and waiver in August 2018 to the Revolving Credit Facility and the Security Agreement in effect for fiscal 2019 amending the fixed charge coverage ratio and annual capital expenditure limits. While management continues to assess the long term effect of the Toys R Us bankruptcy, management is confident that the temporary suspension of payments on related party debt, suspension of service and development fees for six months, availability of cash from our revolving credit facility and significant efforts to reduce inventory levels during the current fiscal year will be adequate to meet the company's liquidity requirements for the next twelve months.

## **INVENTORY SELL THROUGH**

We monitor the inventory levels and sell through activity of our major customers to properly anticipate defective returns and maintain the appropriate level of inventory. We determine our reserve for sales returns based on historical return ratios and information available from the customers. We believe that our reserve for sales returns reflects the proper amount of reserves to cover potential defective sales returns.

## **SEASONAL AND QUARTERLY RESULTS**

Historically, our operations have been seasonal, with the highest net sales occurring in our second and third fiscal quarters (reflecting increased orders for systems and music merchandise during the Christmas holiday season) and to a lesser extent the first and fourth quarters of the fiscal year. Sales in our second and third fiscal quarters, combined, accounted for approximately 89% and 84% of net sales in fiscal 2018 and 2017, respectively.

Our results of operations may also fluctuate from quarter to quarter as a result of the amount and timing of orders placed and shipped to customers, as well as other factors. The fulfillment of orders can therefore significantly affect results of operations on a quarter-to-quarter basis.

## **INFLATION**

Inflation has not had a significant impact on our operations. We generally have adjusted our prices to track changes in the Consumer Price Index since prices we charge are generally not fixed by long-term contracts.

## **OFF-BALANCE SHEET ARRANGEMENTS**

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

## **CRITICAL ACCOUNTING POLICIES**

The Company's interim financial statements were prepared in accordance with United States generally accepted accounting principles, which require management to make subjective decisions, assessments and estimates about the effect of matters that are inherently uncertain. As the number of variables and assumptions affecting the judgement increases such judgements become even more subjective. While management believes its assumptions are reasonable and appropriate, actual results may be materially different than estimated. The critical accounting

estimates and assumptions have not materially changed from those identified in the Company's 2018 Annual Report.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not required for small reporting companies.

### **ITEM 4. CONTROLS AND PROCEDURES**

(a) *Evaluation of Disclosure Controls and Procedures.* As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based upon this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) *Changes in Internal Controls.* There was no change in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

CERTIFICATIONS

I, Gary Atkinson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of The Singing Machine Company, Inc. for the period ended September 30, 2018;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
