

# CaRing

## TENSION RELIEF BANDS

Give Your Fingers a Mini-Massage!

Palmero's CaRing Tension Relief Bands are a flexible and convenient way to soothe sore, achy fingers.

Borrowing from acupressure techniques used on fatigued muscles for thousands of years, CaRing Bands contain tiny triangular shaped points that apply light pressure to your fingers.

CaRing Bands:

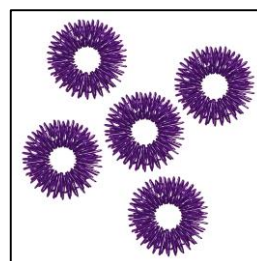

- Immediately relieve finger fatigue
- Stimulate circulation, releasing tension built up after a long day's work
- Promote healthy hand care and maintenance
- Improve overall stress management

### Instructions for Use:

Applying gentle pressure, gently roll the ring up and down on each desired finger evenly from top to bottom.

The rings should not be sterilized or placed in any type of dental instrument washer.

For external use only.
