## PRESS RELEASE

For Immediate Release

February 2018

### The Next Generation of Disposable Face Shields Is Here!

**Palmero Healthcare**, a Hu-Friedy subsidiary, is proud to offer Dynamic Disposables New Snapeez Face Shields. Known for our safety and infection prevention compliance products, we understand the importance of face shields when additional protection is needed to safeguard the entire face from infectious agents.

Lightweight, disposable, and cost effective, our new Dynamic Disposables Snapeez Face Shields provide extremely comfortable coverage. It's an addition to our traditional line with an easy-to-use snap-on disposable lens feature. The self-sealing face shields prevent splatter exposure and meet OSHA bloodborne pathogens PPE guidelines.

Our Dynamic Disposables are extremely easy to use and remove, and fit comfortably over prescription glasses or goggles. Unlike some systems that use an "eye glass style" frame to support the shield, our lightweight frame does not require a nose bridge delivering a more-comfortable, more-secure fit.

The full and half shields both use our Ultra-Clear™ Technology to prevent fogging, glare, and static electric buildup. The crystal clear plastic allows for excellent front and peripheral vision with protection you can trust. Because they are disposable, your shield is guaranteed to be scratch free for optimal visibility.

Find the right fit for your practice. Choose your protection from our original snug- fitting elastic band design or Palmero's new Snapeez Face Shields! For the ultimate in PPE protection, compliance, comfort, and convenience, Palmero Healthcare face shields clearly deliver superior protection for a stress free procedure.
