Palmero’s New Cleaning Solution Prevents Eyewear From Fogging

Palmero Healthcare, a Hu-Friedy subsidiary, is pleased to introduce its new **Provision™ Anti-Fog Solution**, an alcohol-free optical foaming cleaning solution that resists scratches, static, and stains.

Fogging can limit visibility during crucial procedures. Provision is easy to use and cost effective. Simply apply the foaming solution on the surface of your eyewear or face shield and wipe clean with a soft cloth.

Provision Anti-Fog Solution is compatible with all eyewear, face shields, mirrors, loupes, and scopes. The foam formula yields 5 times the applications compared to a traditional pump or squeeze bottle. It doesn’t drip or run and is non-toxic and non-flammable. From eyesight safety to radiation mitigation wear, the Palmero Healthcare portfolio of products delivers infection prevention and safety products for clinicians, patients, and your practice.

For more information, visit palmerohealth.com, email customerservice@palmerohealth.com, or call 800.344.6424

Palmero Healthcare has been committed to bringing a wide range of infection prevention products such as hospital-level disinfectants, barrier products, and safety products to the dental community since 1957. With quality and reliable dental products, Palmero’s goal is to become the recognized leader in infection prevention and safety products. We take pride in knowing that our legacy will continue to expand and flourish as a Hu-Friedy subsidiary where our MISSION is to provide infection prevention and safety products that protect clinicians, patients, and the practice.

Protecting Clinicians, Patients, and the Practice
