Palmero Announces New Cleaning Products for Eyewear and Upholstery Surfaces

Stratford, CT – Palmero Healthcare, a subsidiary of Hu-Friedy, is proud to announce the release of two new cleaning wipes, both of which are designed to enhance the effectiveness of our existing lines of cleaners for protective eyewear and upholstery surfaces. These new cleaning wipes improve upon the fulfillment of our mission to provide high quality products for the purpose of infection prevention and safety both for dental professionals and their patients.

ProVision® Crystal Clear Anti-Fog Solo Wipes (Ref#3534S):

Designed to complement our existing optical cleaning canister wipes, these wipes are individually wrapped and offers the same great features used to clean optical lenses while providing long-lasting, anti-fog protection. Safe and effective for lenses including glass, acrylic and polycarbonate, ProVision® Solo Wipes can be used to clean protective eyewear and goggles. These wipes feature a pleasant fragrance and come in packs of 100 wipes, individually wrapped and premoistened for maximum convenience and effectiveness.

Protectall™ Upholstery Cleaner Wipes (Ref#3800):

These innovative cleaning wipes are designed to help dentists protect their office investments by cleaning, protecting and restoring leather, vinyl, plastic, and rubber upholstered surfaces. Excellent for use on surfaces ranging from dental chairs to x-ray aprons, these wipes work exceptionally well as a follow up after cleaning and disinfecting with our DisCide® Ultra surface disinfectant products. Disinfect and protect!
