

ABOUT CARD EGO

Almost everyone wants to have a metal or black credit card instead of the regular cards. This is mainly because metal credit cards give the illusion of wealth, exclusivity, power and connection. With a metal credit card one feels the sense of control and it also earns such a person respect amongst other people. People who use these cards are seen as important people in the society since these cards are known to be held by affluent people. Furthermore, these cards also improve the self-esteem and confidence of the people holding them because such people get the sense of being important.

Bryce Cleveland, CEO of CARD EGO has made it possible for all the people to have the metal credit cards. He has achieved this through CARD EGO changing the regular cards into metal cards. This company provides all people with these prestigious credit cards instead of the regular ones that are common with many people. The process of getting a metal card from Card Ego is simple and can be done by almost anyone. The company has simplified the process of getting the cards with a primary objective of ensuring that more people all over the world are able to get these cards conveniently. We want you all to feel the way we did when we first used our metal cards.

Qualities metal cards that make them more popular than the regular banking metal cards include that they are thicker. This makes them more durable for they cannot crack easily even if pressure is exerted. Because of this one does not have to worry about keeping the cards even in the back pocket for even if they are sat on they do not get damaged. Another quality that makes these metal cards better is that they are heavier. This means that one can easily notice when the card falls off for one will feel that there is something that has fallen from the pocket. Furthermore, the card just looks elegant and therefore one feels good while using it or just keeping in the wallet.

OUR PROCESS

We realize that sending someone your credit card can be a bit of an intimidating thing. We here to assure you that this is an extremely safe, fast and secure process. Your information is transferred from one card to the next but never stored in any of our programs. A simple sweet transition from your existing plastic card to the new metal credit or debit card.

01

YOUR PART

Card Ego makes the process of upgrading your status by upgrading your existing credit/debit card simple, safe, and secure. Find the card that fits your style best, and start customizing. Because we are using your current credit/debit card information, if you purchase more than one card, you will need to send us the accompanying amount of cards, (if you purchase 3 cards, we will need 3 of your existing credit or debit cards). Once you checkout you will instantly receive a pre-paid postage stamp to print out at home. Place your card(s) in a letter size or manila envelope, attach postage, and drop your card in the mail. Our pre-paid postage is trackable so you can ensure your card makes it here quickly and safely.

IMPORTANT NOTES

- You will upgrade the same amount of cards as you purchase
- You do not need to add any extra postage or tracking
- Print out your postage at home
- Use any letter sized or manila envelope
- Be sure to check out our CARD EGO Insurance to safeguard you against your new CARD EGO being lost or stolen!

02

OUR PART

You'll be happy to hear that we take it from here! Once we receive your existing credit/debit card, we begin our transfer process. This is a 24-hour turnaround process that has been tried and tested to ensure the validity and safety of your card remain intact. We are able to use a data transferring process to transfer the encrypted information so you will be able to swipe your new metal card as if it were your old credit card. Your credit card numbers, expiration, csv codes will all remain the same. We will also be removing your security chip from your current card and securing it into your new CARD EGO card. You will be happy to hear that unlike other companies, the chip transfer is a standard feature and will be done with every card. After all what good is your new card if it doesn't function correctly! After we have completed the transfer process, we will FedEx your new metal credit card to your door! Cards are usually delivered in the US within 2 business days.

IMPORTANT NOTES

- The transfer process is a 24-hour turnaround process.
- Your chip will be transferred to your new card.
- All your information on your card will remain the same.
- In order to protect you and your identity, before we can release your new card we will need to verify your identity so we can match your name to your card. You can quickly and easily upload a picture of your ID and front and back of your credit or debit card.

03

YOUR PART

Go out and impress! We guarantee you are going to love the way people look and treat you while using your metal credit card. As always remember to drop us a line to let us know how you like your new card, be sure to share where you take your card @card_ego. Last since we know you are going to want to tell your friends about your card, be sure to sign up for our rewards program! You can earn heavy discounts for both you and your friends for sharing your CARD EGO.

IMPORTANT NOTES

- Go out and impress
- Start a conversation, without saying a word
- Join our rewards program to earn heavy discounts for you and anyone you share this with.
- Share the love on social and show us where you are taking your CARD EGO.

CARD CONSTRUCTION

SIMPLE & SLEEK

When it comes to metal credit cards, less is more. Each one of our custom metal credit card is simple, sleek and designed to impress. Let's be honest, the goal here is to achieve the look of the original metal credit cards without having to qualify to get one. Don't clutter your card with extra logos and decorative engraving. Keep it simple, keep it sleek, keep it CARD EGO.

CHIP READY

All CARD EGO cards feature the chip technology to ensure your card works wherever you go and it preserves your existing credit card security. Credit card chips use encryption technology to add extra protection to your personal information. They were introduced a few years back in attempt to reduce your risk for fraud by disabling people from accessing your information.

STAINLESS STEEL

Our custom metal credit cards are made of stainless steel construction. They are crafted to last and grab attention. People are impressed when they grab hold of your card. Usually, they haven't seen one before, and all they know is that it must mean that you money to achieve status of a metal card.

SWIPE ME

Not all terminals across the world are chip ready, so your card will be able to swipe. We use detailed programs to transfer your existing data to your new metal credit card.

LASER ENGRAVING

Personalized engraving to make your card custom and give it to that refine look.

CUSTOMIZE YOUR CARD

Pick a pattern or logo that best represents your style, company or brand. Unify your sales team by ordering custom metal cards for each rep. Place your company logo on a custom CARD EGO card and watch as your sales reps confidence soars, and more deals get closed. Show your team and clients that you mean business with an all-metal card.

Customize your plastic credit/debit card into one of these stainless steel .8 mm thick custom metal cards. Specially engraved and designed to boost your CARD EGO. Our service is 100% safe and secure. Please reach out to us with any questions.

CHOOSE YOUR WEAPON

The card you use makes a statement. Whether it's checking in at a resort, or buying dinner for a client or staff meeting. Ready to upgrade your style? Choose between one or all of our luxury card styles; Black, Rose Gold, and Gold. Boost your own Ego, or be a real boss and upgrade cards for your whole sales team. CARD EGO FAQ'S

ARE MY PAYMENTS SECURE?

Yes! We are committed to safeguarding and keeping your personal information just that, personal. We maintain your privacy and use a secure check-out process in order to keep you safe. All of our transactions are conducted through our Shopify platform and are secure and insured. Your information is never stored and or seen by us. it sleek, keep it CARD EGO.

WHAT IS CARD EGO?

Card Ego is a company formed to help the public achieve the status and excitement of receiving a metal credit card, without having to qualify for one. We are a technical company who can upgrade your existing plastic credit cards to custom heavy metal credit cards. We use a secure precise process to transfer over your data from your existing card to a new metal card.

IS CARD EGO AFFILIATED WITH MY BANK?

No! We are a third party privately owned and operated company that has no affiliation to any bank. We are not issuing you a new line of credit, simply upgrading the look and feel of your plastic credit card.
