# Our Story

**Winery.ph was first conceived in 2016 by a group of passionate wine lovers, united by one simple goal: to become the most trusted and popular wine supplier on Philippine e-commerce and social media.**

We believe in using digital tools to introduce the pleasures of wine to a new generation. We strive to ensure that we sell great wines at great prices, and deliver these directly and conveniently to your desired location.

Our online shop went live in 2017, and since then, we have focused on curating a fantastic collection of red wines, white wines, sparkling wines, rosé wines, and dessert wines at value-for-money prices.

Today, we continue to expand our wine portfolio as we strive to be a vast cellar just a click away for our Winery.ph community.

Since we began, we've made sure to fully satisfy our patrons in all aspects of our offerings: product quality, reliable delivery, and satisfaction guarantee. We make purchasing wine, spirits, and gourmet groceries a fun-filled, worry-free experience.

## Our Belief

We believe wine need not be pretentious or expensive.

We believe good wine tastes as good on the beach with friends as it does in a 5-star luxury restaurant.

We believe wine can pair beautifully with food in the Philippines.

We believe in empowering Filipinos to learn about and enjoy wine – no matter where you are in the country – through our online channels, public events, and virtual tastings.

# Our Wine

Our goal is to bring our customers great wines for the best possible price, and this begins with how we select and source our range.

**WE TASTE, WE SELL.** Our team has wine industry insiders who select wines that are palatable, fairly-priced, and well-suited to the country's cuisine and climate. When new wines arrive, our panel of both experts and amateurs(!) alike taste-test these to ensure their quality and to pick up new tasting and pairing notes to share with our community.

**GREAT WINE NEED NOT BE HIGH PRICED.** We source wines from regions and wineries that have excellent quality, but are a little less known. For example, Australia's Margaret River region produces red wine blends nearly

identical to those of Bordeaux, France when tasted blind. But the big difference is the price!

**STORED AND HANDLED WITH CARE.** All our wines are kept in our air-conditioned warehouse. We ensure minimal handling and transport of the wines before they reach you. Many of our wines are bottled with Stelvin caps, which stand out in long-term cellaring and eliminate the risk of wine going bad even in the tropical heat.

**OUR QUALITY PROMISE.** Our 100% Winery.ph Wine Quality Guarantee means you can buy with confidence knowing if you have any doubts regarding our wine quality, we will happily replace it or refund your money.
