

An ingenious update to the E15LED range, these fittings supplied complete with microwave sensor, dim down to 10% when the zone is unoccupied. This feature provides very effective energy saving but importantly maintains the security and safety of the area.

LED

15W
5 YEAR GUARANTEE
220-240V

Specification

- Voltage:** 220-240V
- Wattage:** 15W LED
- Lamp:** 72pcs high brightness 2835 SMD LED chips
- Colour Temp.:** 3500K
- Colour Index:** >75
- Lumen Output:** 1500lm (200lm's in emergency).
- Battery:** 350mA 3.6V
- Life Expectancy:** 35,000 hours
- Guarantee:** 5 year
- Material:** Polycarbonate
- Working Temp:** -20°C - 50°C
- Extra Info:** Self-heat dissipation design (no extra heat sink required),

Complete with constant current LED driver, complete with three / four way push terminal.

Suitable for replacing gear tray of various 2D 28W circular bulkhead fittings.

Dims down to 10% when area is unoccupied.
