This test contains 50 multiple-choice, single answer questions. You will have 180 minutes to complete the examination. Always pick the **BEST** answer.

Read each question carefully and then decide which choice is the correct option. Your score is calculated based on the total number of questions answered correctly. You should answer ALL questions, even if you are not completely sure of the correct response. Do not spend too much time on any question. You will have the ability to return to questions while taking the examination.

If you need to leave the room during the examination, all examination materials must be surrendered to the test site supervisor until your return. You may not make up lost time.

After you have finished, we encourage you to comment on the examination, examination site, test site personnel, or any aspect of our credentialing program.
