

MOVE STACK ACCESS AUTOMATE

MOVE

BIG JOE CAN HELP YOU MOVE MATERIALS SMARTER IN YOUR OPERATION.

Replace manual equipment that requires physical labor to transport goods from point to point. By putting simple machines in the palm of your workers hands you can increase productivity while reducing costs from injuries and employee turn over.

P33

- 3,300 lb. capacity
- Semi-Electric pallet jack
- Permanent magnet drive motor
- Manual lift and lower

LPT26

- 2,600 lb. capacity
- Lithium-ion powered pallet jack
- 24V Easy Exchange battery
- Permanent magnet drive motor

E30

- 3,000 lb. capacity
- Electric pallet jack
- Permanent magnet drive motor

LPT33

- 3,300 lb. capacity
- Lithium-ion powered pallet jack
- 24V Easy Exchange battery
- Permanent magnet drive motor

D40

- 4,000 lb. capacity
- Electric delivery pallet truck
- Double tap creep speed operation

LPT40

- 4,000 lb. capacity
- Lithium-ion powered pallet jack
- 48V Easy Exchange battery
- Permanent magnet drive motor

MOVE

LPT44

- 4,400 lb. capacity
- Lithium-ion powered pallet jack
- 48V Easy Exchange battery
- Permanent magnet drive motor

WPT45

- 4,500 lb. capacity
- Electric heavy duty pallet truck
- Industrial battery box

WPT60/WRT60

- 6,000 lb. capacity
- Walkie rider pallet truck
- Fork lengths up to 96"

T15/T40

- 1,500 lb. and 4,000 lb. capacity
- Walkie tugger
- Integrates with common carts

RPL44

- 4,400 lb. capacity
- Low-profile rider pallet truck
- 24V lithium-ion battery

PTT60

- 6,000 lb. capacity
- Pedestrian Tow Tractor
- 24V lithium-ion battery

MOVE

STACK

BIG JOE CAN HELP YOU STACK MATERIALS SMARTER IN YOUR OPERATION.

Many of these products can be used for basic warehousing in tight areas or as mobile work positioners to improve workplace ergonomics. Walkie stackers are a great way to supplement a fleet given their low operating cost, and can improve safety in congested work areas. Ride-on equipment like our LXE Spark Lithium forklift are great choices for general purpose work where long travel distances are contemplated either indoors or out and fast charging and clean power is desired.

IBH

- 1,000 lb. to 2,000 lb. capacity
- Semi electric straddle stacker
- Heavy duty straddle & fork over models

S22/S30

- 2,200 lb. and 3,000 lb. capacity
- Compact walkie straddle stacker
- Permanent magnet drive motor
- Offset tiller
- Optional fork over configuration

PDS25/30/40

- 2,500 lb. to 4,000 lb. capacity
- Walkie straddle stacker
- Industrial battery box
- Lithium-ion capable
- Top mounted tiller

PDSR30

- 3,000 lb. capacity
- Walkie reach stacker
- Lithium-ion capable
- Pantograph mechanism
- Power steering

STACK

CB22

- 2,200 lb. capacity
- Walkie counterbalanced stacker
- Industrial battery box
- Low mount tiller

CB30/35

- 3,000 and 3,500 lb. capacity
- Walkie counterbalanced stacker
- Industrial battery box
- Lithium-ion capable
- Power steering

LXE40 SPARK

- 4,000 lb. capacity
- Lithium-ion powered forklift truck
- Solid pneumatic tires
- 48v AC drive motor
- Weather resistant design for indoor / outdoor use

STACK

CLASS 1 SIT DOWN FORKLIFTS

LVE35 SPRINT

- 3,500 lb. capacity
- Lithium-ion powered three-wheel forklift truck
- 80V 230AH lithium-ion battery with integral single phase charger
- Dual AC drive motors

LVE40*

- 4,000 lb. capacity
- Lithium-ion powered three wheel forklift truck
- 48V 360AH lithium-ion battery
- Fast charge, clean power, low cost

LXE50 SPARTAN

- 5,000 lb. capacity
- Lithium-ion powered three-wheel forklift truck
- 80V 460AH lithium-ion battery with integral single phase charger
- Dual AC drive motors

LPE50/60 BRUTE*

- 5,000 to 6,000 lb. capacity
- Lithium-ion powered three-wheel forklift truck
- 80V 460AH lithium-ion battery
- Fast charge, clean power, low cost

ACCESS

BIG JOE CAN HELP YOU ACCESS MATERIALS SMARTER IN YOUR OPERATION.

The compact and capable Joey series of vehicles offers great alternatives to rolling ladders or larger equipment where elevation of personnel is required to complete a task such as order picking or overhead maintenance.

JO JOEY

- Electric access vehicle
- 750 lb. total vehicle capacity
- Lift heights up to 118"
- Powered load tray

J1-126/J1-162/J1-192 JOEY

- Task support vehicle
- 1,000 lb. max. total vehicle capacity
- Lift heights up to 192"
- Optional towing of up to 2,500 lbs.

ACCESS

J2-72

- Low level order picker
- 2,200 lb. max total vehicle capacity
- Lift height 72" platform elevation
- Dual travel controls
- Features ergonomic mini-mast

J2-126/J2-162/J2-192

- Mid level order picker
- 2,200 lb. max total vehicle capacity
- Lift heights up to 192" platform elevation
- Dual travel controls

J1HD SUPER JOEY

- Task Support Vehicle
- 1,200 lb. max total vehicle capacity
- Lift heights up to 210"
- 48v high performance operation
- Optional towing of up to 3,600 lbs.
- Optional lithium-ion battery

CUSTOM APPLICATIONS

ALL BIG JOE PALLET TRUCKS, TUGGERS, STACKERS, AND JOEY SERIES VEHICLES CAN BE TAILORED TO MEET THE NEEDS OF SPECIAL APPLICATIONS.

By matching our equipment attributes to the repetitive tasks they perform we can deliver exceptional value with simple machines. Should you have a material handling challenge based on how you move, stack or access materials let us know.

OUR PRODUCTS CAN OFTEN MEET SPECIAL REQUIREMENTS RELATED TO:

- Drum & Die handling
- Roll & Coil handling
- Ram & Boom attachments
- Hydraulic clamps & Load positioners
- Conveyor transfer via ball or roller platforms
- High density load handling via solid platforms
- Precision furnace loading and unloading

WE CAN DEVELOP A SOLUTION FOR A WIDE RANGE OF REQUIREMENTS UTILIZING OUR WHOLE LINE-UP OF BIG JOE BRAND PRODUCTS.

- Route delivery applications
- Beverage order picking and distribution
- Rack to shelf solutions for retail distribution
- Specialty full pallet, half pallet and quarter pallet handling
- Integration with cart and cart systems
- Omni-channel, e-commerce, and click & collect operations
- Flexible low level high density order picking solutions

CUSTOM

AUTOMATE

BIG JOE CAN ELEVATE YOUR OPERATION AND AUTOMATE YOUR MATERIAL HANDLING WITH INTELLIGENCE.

The Pallet Mover AMR provides a user directed approach to automating on-demand material handling workflows that acts as a force multiplier by empowering people, improving their work experience, and maximizing their potential.

thoro.ai

AMR

- Pallet Mover User Directed AMR
- 24V lithium-ion battery
- Easy deployment

AUTOMATE

BIG JOE MISSION

We believe that we can help North American businesses improve their results and the quality of their workers' lives by providing simple innovative material handling products and genuine responsive support.

Big Joe equipment focuses on supporting customers changing needs related to how they **Move, Stack, Access, & Automate** the handling of materials in their operations with the goal of helping companies and their workers **Move More & Hurt Less.**
