

HOISTS

Pull-Up Series

SCAFFOLD AND ROOF HOISTS

Pull-Up Series

Unlike our competitors, who just source components from a variety of suppliers to piece together their hoists, we do it the right way... **IMER designs and manufactures all our hoists in-house!** When you check out the fit, finish, and performance of the Pull-Up Series you will easily see the difference.

ALL NEW VERSION

PULL-UP 450 HOIST

IMER built the Pull-Up 450 to be **one versatile hoist**. Mount it onto a vertical scaffold pipe or attach a track trolley and run it back n' forth on one of our trolley tracks. The duty cycle of the 450 or 650 is the best in the industry. Compare how many loads an hour a Pull-Up handles to that of BetaMax or a Hi-Tech...**IMER hoists deliver more productivity** - Guaranteed!

ALL NEW VERSION

PULL-UP 650 HOIST

When the loads are heavier and the distance to be lifted is higher **go with the Pull-Up 650**. Whether you need 650 pounds taken up 220 feet, or 1300 pounds up 110 feet with the accessory Pulley Kit, the Pull-Up 650 will get the job done...**all on 110 volts**.

The motor and gearbox drive on the Pull-Up 650 are specifically built to **perform heavy duty work**. Robust performance and high quality are guaranteed, as these hoists are engineered and manufactured in-house... **we don't source it, we build it!!** When you really have to get it up, count on the Pull-Up 650 from IMER USA.

INCLUDED AT NO CHARGE

Every Pull-up 450 comes **standard with the Post Mount Kit**. This enables you to connect the hoist to the vertical pipe of the scaffold which allows the hoist to swing in and out.

QUICK SPECS	Pull-Up 450	Pull-Up 650
Lifting capacity	450 lbs.	650 lbs. / 1,300 lbs. with pulley kit
Lifting height	160 feet	220 feet / 110 with pulley kit
Lifting speed	70 feet per minute	70 feet per minute
Motor	1.5 HP / 110 Volts / 14 Amps	2 HP / 110 Volt / 20 Amps
Motor voltage	110 V	110 V
Cable rope size	3/16"	1/4"
Post Mount	Included	N/A
Track Trolley	Optional	Included (pick IMER or Beta Max style)
Machine Weight	130 lbs.	150 lbs.

CONTRACTORS SPEAK UP

"Lifting 5 gallon pails of material with a rope and pulley was exhausting work and not very efficient. By using the Pull up 450 and the 4 bucket carrier we have a lot more time to set block, and we also improved the manner in which we lift our mud up onto the scaffold - it's safer now. In fact, I like the system so well I recently bought another Pull up 450!"

Bob Manula, Owner Pam Masonry, Spotsylvania, VA.

Pull-Up Series

Just like our hoists, the Pull-Up Series of accessories are designed and manufactured in-house. These accessory components are guaranteed to make your Pull-Up 450 or 650 even more **efficient and effective on any jobsite**. We have even developed components that allow you to operate an IMER hoist on a Beta-Max track/trestle.

Remember to always put **safety first** whenever you are setting up a lifting system. If you have any concerns at all, contact your IMER hoist dealer or call IMER USA directly at 800.275.5463.

Let the products and dealers of IMER USA **take some of the hassle out** of your next lifting application, sometimes you just need a little help to get it up.
