

LED Mini Dimmable Transformer - MINI-TA-60-12V

ELV (Electronic Low Voltage) dimmable drivers are compact power supplies that can be placed in remote locations, and provide stable and efficient power. Advanced technology reads the signal from a TRIAC dimmer switch for smooth dimming. They are also already derated, which means they can be loaded to maximum wattage capacity.

Features

- Compatible with reverse phase ELV dimmers.
- 100% maximum load; 0% minimum load.
- Class 2.
- Auto reset and thermal protection.
- Short circuit protection.
- Auto reset and thermal protection.
- ELV dimmable.
- 5 years limited warranty.
- ETL listed.

Specification

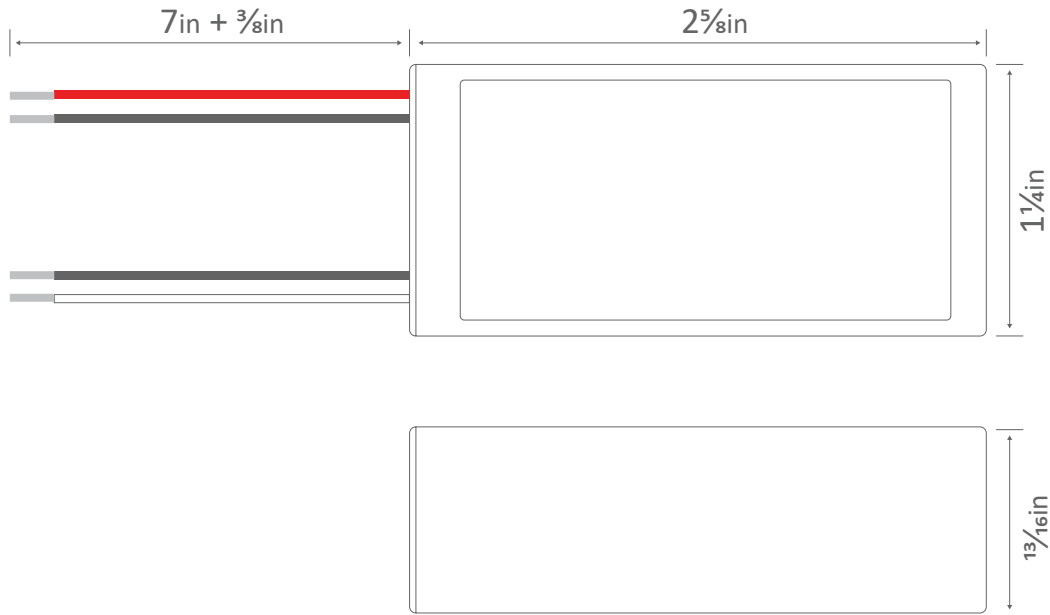

Input Voltage	120V AC
Input Current	0.5A
Output Voltage	12V
Rated Current	5A
Wattage	60W

Frequency Range	50/60 Hz
Dimensions (L x W x H)	2.70x1.29x0.84in
Dimmable	ELV
Operating Temperature	-22°F~194°F

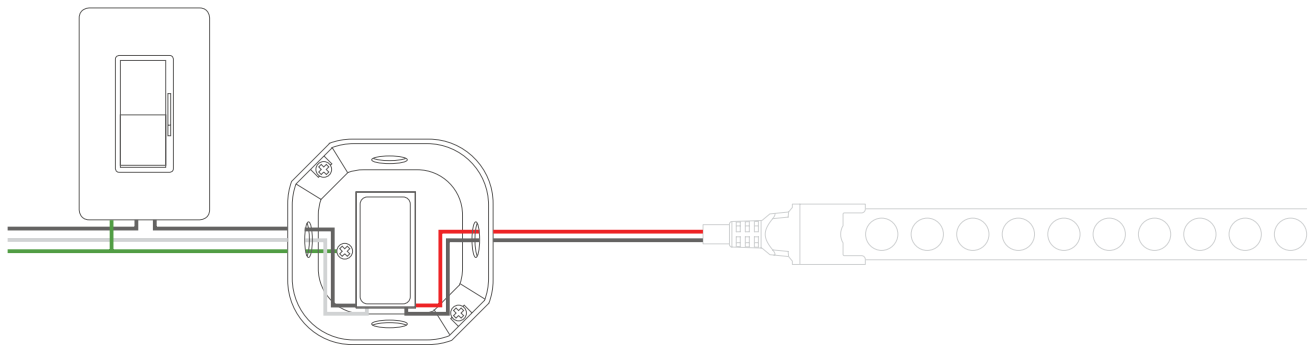

Order Information

Series	Power	Voltage
MINI-TA	60	12V
