G.L. LED US LIGHTING

Undercabinet Light - Sensor & Dimmer - Wired

 $Low Voltage \ Wired \ Sensors for \ Under-Cabinet \ Lighting-Includes \ Touch \ Dimmer, Door \ Sensor, Wave \ Sensor, and \ PIR \ Motion \ Sensor. \ Control \ lights \ easily \ with touch, door \ opening, hand \ wave, or motion \ detection. \ Offers \ on/off \ switching, stepless \ dimming \ (10-100\%), and \ energy-efficient, hands-free \ convenience \ for \ cabinets, \ closets, \ wardrobes, \ and \ other \ furniture \ lighting.$

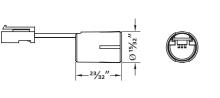

Features

- Input voltage: 24V.
- Supports both recessed and surface mounting.
- Compatible with various connector systems for direct centralized control with smart drivers.
- Apply to cabinet, closet, wine cabinet and other lighting.

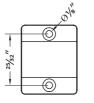

Specification

Model	96691W-LDV-TG	96691M-LDV-TG	96691D-LDV-TG	96691P-LDV-TG
Input Voltage	24V DC			
Output Current	3A			
Switch Mode	Door Control	Wave Sensor	Touch Dimmer	PIR
Detecting Range	6-10cm	4-6cm	Touch Plate	1-3m
Finish	Anthracite			

Dimension

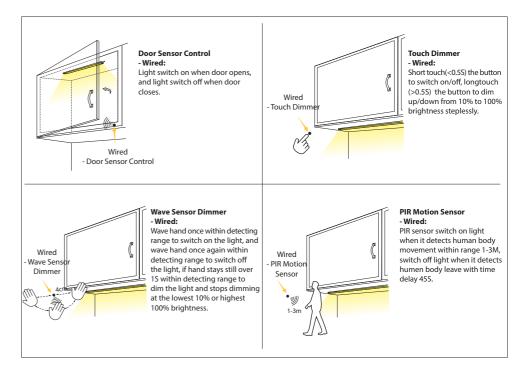

Recess Mounted

Surface Mounted
