Added glycerol emollient to maintain skin condition.

- Disinfects hands after washing or wherever soap and water are not readily available.
- Rapidly evaporates from hands without leaving a residue or odour.
- Recommended wherever food is handled, prepared or served.
- Ideal for in between patient contact in non-surgical medical care establishments.
- Passes EN 14476 against vaccinia virus, which allows a claim against all enveloped viruses, including Coronavirus, with 1-minute contact time.
- Suitable for use against enveloped viruses including Human Immunodeficiency Virus (HIV), Influenza Virus, Herpesvirus and Hepatitis B.
- Available in a choice of pack sizes to meet a variety of requirements.

Due to a reduction in workforce, increase in demand and global supply challenges, we are temporarily packing the 75 ml bottle without a clip. We apologise for any inconvenience this may cause.

### DIRECTION FOR USE:

For use on visibly clean hands only.

If hands are dirty, wash with soap and water, rinse and dry before applying Handsan.

Use sufficient product (1.5-3ml) to ensure complete coverage.

This may vary with hand size and skin condition. (1 pump is approximately 0.5ml for 75ml pack, 1ml for 500ml pack and 2ml for 1L dispenser).

**Apply to palms and spread over hands and wrists, paying special attention to cuticles and creases in skin. Rub in well; until skin is dry. This should take approximately 1 minute.**

Drying hands is not necessary as product will evaporate leaving skin refreshed and sanitised.

- Not suitable for use on hands with cuts or grazes, or on damaged skin.
- Avoid spilling or splashing on clothes or fabrics.
