

Evans Vanodine **TARGET™**

Target™ is a heavy-duty, alkaline foaming detergent.

25L

BENEFITS

- ✓ Powerful, heavy duty cleaner for effective removal of food soil
- ✓ Suitable for the food process industry, all slaughterhouse and meat processing factories
- ✓ Can be used with hot or cold water and in all water areas
- ✓ Ideal for high pressure water or compressed air systems or for manual application

APPLICATIONS

FOAM APPLICATION: Target™ should be used at a concentration of 3-6% v/v (30-60 ml per litre) at temperatures from ambient to 600C through a pressure wash system fitted with a suitable foam lance. When applied through a pressurised canister applicator the concentration may be reduced to 2-5% v/v (20-50 ml per litre) at ambient temperature. The foam should remain in contact with the surface for 5-15 minutes before being rinsed to drain at high pressure, with preferably hot (60-700C) potable water.

MANUAL APPLICATION: Target™ may be applied by brush or abrasive pad at concentrations in the range 1-2% v/v (10-20 ml per litre) at 40-500C. Surfaces should be rinsed thoroughly, with potable water.

IMMERSION: Target™ should be used at 1-5% v/v (10-50 ml per litre) at 50-800C followed by a thorough rinse in potable water.

PRODUCT INFORMATION

Appearance:	Clear pale straw colour liquid
Odour:	Faint solvent
pH - undiluted:	13.45
Shelf life:	3 years

SAFE HANDLING & STORAGE

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.

SUPPLIER INFORMATION

Product Name:	TARGET™
Product Code:	EVA039KEV
Supplier:	Quill Productions, Manor Farm, Pulham, Dorset DE2 7EE
