WWW.QUILLPRODUCTIONS.CO.UK

Welcome

Welcome to our 2019 catalogue which is bigger than ever with lots of new products and services and important news. As a company, we have worked closely with vets for years developing and testing products, all driven towards the underlying important task of reducing disease, anti-biotic usage and ultimately producing strong healthy birds in a cost efficient way. I am extremely happy to announce that we are now also a registered vets practice and able to offer veterinary services and medicines through a collaboration with the specialist poultry and gamebird vets team at Mount Vets. Products tried, tested and approved by vets are marked with...

Following customer demand, we have made this catalogue more of an all inclusive catalogue, including product lines from the Intra Hoof-fit range of which we are the sole importers into the UK. Originally developed as a cure for digital dermatitis in dairy cows, this wonder product is very versatile for a whole range of skin and claw ailments and used across all agricultural industries from dairy, pig, poultry and even game so we hope you will find it interesting.

At the time of writing (December 2018), Brexit and any deal is still an uncertainty. In terms of the effect on any mid year price increases, we will do our very best to absorb these where possible. British made products are less likely to be effected and these are marked with this logo

Speaking to customers and local shoots, we know that many of you may also be considering rearing your own birds this year for the first time. Concerns are the uncertainty over the import of eggs from Europe leading to a shortage of birds coupled with the risk of buying in birds with underlying disease, with many shoots this year having to cancel days after outbreaks of mycoplasma in purchased poults. If you are considering rearing your own from laying bird to poult and have any queries, do give us a call, we are always happy to chat and share knowledge.

Wishing you a prosperous 2019,
Graham and The Quill Team

How To Order:

Call us: 01258 818239

and speak to one of our friendly and knowledgeable team
Visit us: pop in to see us and pick up what you need

(give us a call beforehand to avoid disappointment)

We're online: www.quillproductions.co.uk

All prices shown EXCLUDE VAT but we show the including VAT price in brackets. Discount quantity prices show the price per individual item, not the total price.

We endeavour to find the most cost effective carriage charge available for the delivery of your goods. These are calculated automatically on our new website or you can call us for our best available delivery quote to your chosen address.

Whilst we always aim to hold prices at a competitive level for our customers, prices may alter throughout the year and are subject to change without notice. Our website will always have the most up to date prices. **Terms and conditions of sale are available on our website.**

Due to administration costs, we require a minimum order value of £5.00 excluding VAT
All information and advice given in this catalogue is correct to the best of our knowledge and any reliance placed on our advice is at the customer's own risk.

At the time of going to print we are unable to accept credit cards. Save time on ordering with a 30 day credit account - email sales@quillprod.com to request account forms.

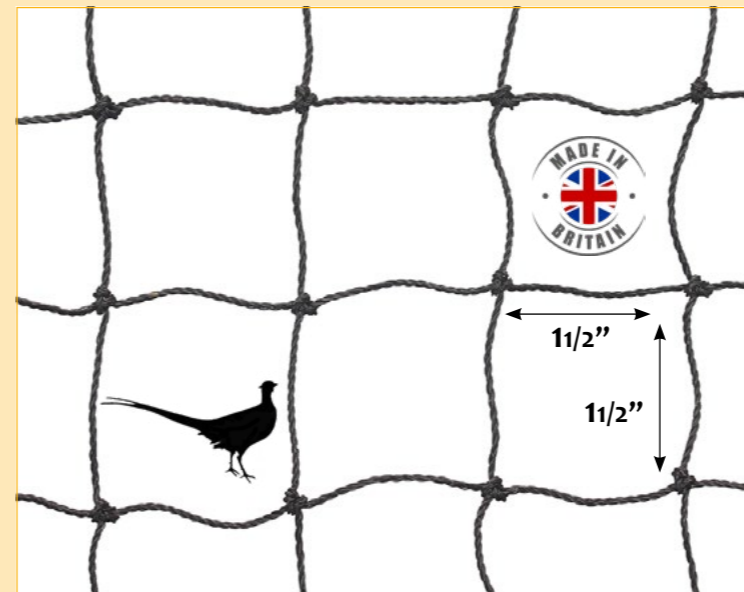

Netting & Fencing

For laying pens, rearing pens or release pens

Netting and fencing a pen can be a time consuming and costly affair.

If you get it wrong, it can be even more costly through escaped birds or predators getting in.

Choose high quality materials which will last as its a horrid job replacing netting after only a couple of years.

PHEASANT NETTING 1 1/2" SQUARE MESH (38MM)

- Flexible top netting
- Hard wearing, British made UV stabilised polyethylene
- Rot proof - will last outside up to 20 years
- Non stretch, non water absorbent
- Breaking strength: 14kg

HEC11x11PH	11' x 11'	£5.30	(£6.36)
HEC11x22PH	11' x 22'	£10.55	(£12.66)
HEC14x14PH	14' x 14'	£8.20	(£9.84)
HEC22x22PH	22' x 22'	£19.80	(£23.76)
HEC22x44PH	22' x 44'	£39.65	(£47.58)
HEC22x66PH	22' x 66'	£59.45	(£71.34)
HEC22x88PH	22' x 88'	£79.30	(£95.16)
HEC32x32PH	32' x 32'	£41.30	(£49.56)
HEC32x64PH	32' x 64'	£82.55	(£99.06)
HEC32x96PH	32' x 96'	£120.30	(£144.36)
HEC42x42PH	42' x 42'	£64.15	(£76.98)

PARTRIDGE NETTING 1 1/8" SQUARE MESH (28MM)

- Same as Pheasant Netting but with smaller holes

HEC11x11PA	11' x 11'	£10.85	(£13.02)
HEC14x14PA	14' x 14'	£17.05	(£20.46)
HEC16x16PA	16' x 16'	£22.70	(£27.24)
HEC22x22PA	22' x 22'	£41.25	(£49.50)
HEC33x33PA	33' x 33'	£88.85	(£106.62)
HEC42x42PA	42' x 42'	£134.00	(£160.80)

Custom sizes can be made to order - call to enquire 01258 818239

HEAVY DUTY GAME NET

- Jumbo 2" plastic square mesh
- Lightweight and robust
- Easy to erect and semi-rigid
- Comes in 100m rolls
- 80g per square metre
- Use for release pens to keep birds in and deer out!

QUILL TRAIL FEEDER

- Huge capacity - holds over 20 bags of feed (25kg bags)
- Delivers fast and efficient feeding for large numbers of birds
- All feed is used thanks to sloping shape of feeder
- Able to dispense pellets, wholegrains and mixtures
- Made from strong and durable plastic
- Waterproof to keep feed dry before dispensing
- Use with specially designed trailer (sold separately) to tow behind a quad or easily fitted to RTV, pickups and trailer beds
- Lightweight plastic lid ensures easy refilling
- Powered by a 12v DC electric motor
- Now with new speed controller
- Made in Dorset.

Easily fitted to RTV, pickups and trailer beds

QTRAIL TRAIL FEEDER £755.85 (£907.02)

Trailer available for trail feeder sold separately

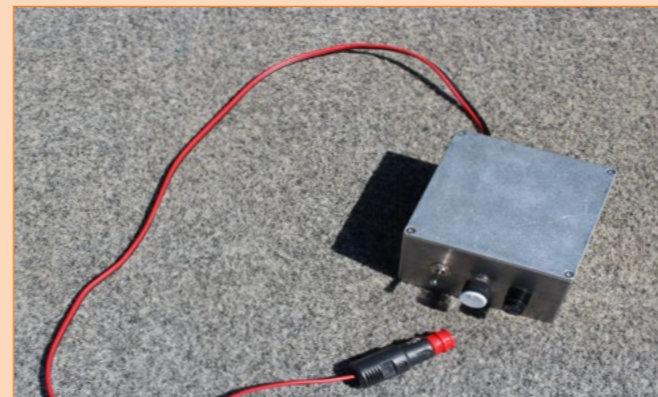

Feeders

Chick trays, small feeders, larger hoppers and trail feeders

We manufacture most of the feeders found on these pages!

Our best selling Midi Feeder always sells well in the summer so don't delay in ordering yours.

Speed controller

Grain is brushed out between wheel tracks not spun - minimises waste and saves money

Don't Forget ANISEED OIL!

See page 36

QUILL TRAILER

- To be used in conjunction with the Quill Trail Feeder
- Galvanised after manufacture
- 50mm box section, built to last
- Can be towed behind a quad bike, ATV, 4x4 or pick up.
- Sold separately to the Quill Trail Feeder

QTRAILGALV2 TRAILER £729.85 (£875.82)

QUILL MIDI FEEDER

BEST SELLER

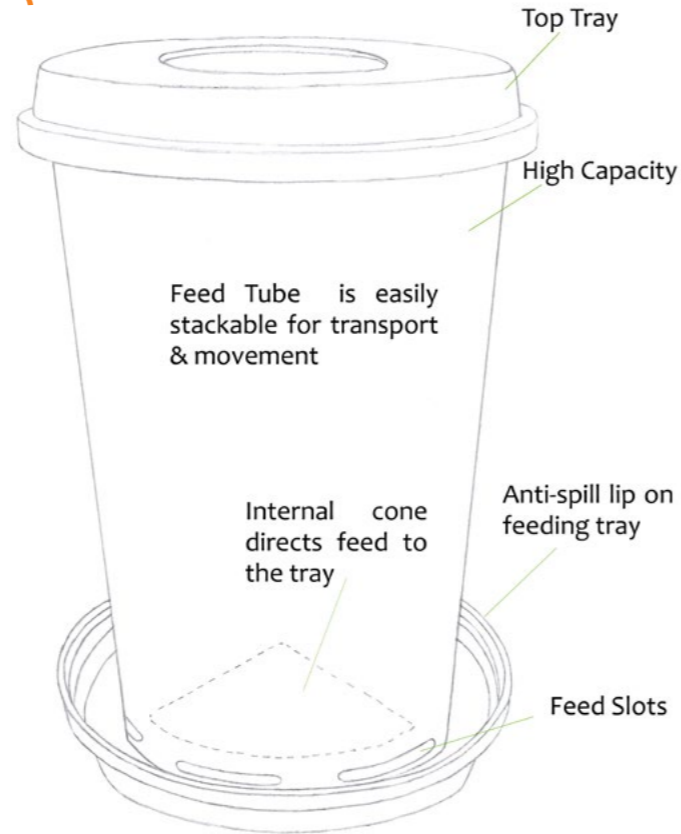

- Integral cone directs feed to tray
- Extremely versatile - base tray can be used as a chick tray
- Add feeding tube and top tray to turn into a high capacity feeder as chicks grow
- Convert to an Outdoor Quill Midi Feeder by adding a Top Hat (available separately) creating sheltered area
- Easy to store, clean and stackable for easy transportation
- Made from strong and durable plastic - will flex, not crack like manola or king feeders

Buy 20+ Indoor Midi Feeders for **£22.50 each** (ex VAT)

Buy 20+ Outdoor Midi Feeders for **£31.00 each** (ex VAT)

QMFTU	SPARE TUBE	£13.75	(£16.50)

NEW!

Drinkers

Manual or mains connected,
for chicks, poults or
adult birds

There is a misconception that nipple drinkers can make bedding wetter than other drinkers.

To get the maximum benefit from your drinker, it is important to get the correct nipple for the type of game birds you are rearing.

The only reason for wet bedding will be if the wrong type of nipple is being used or the water lines require sanitising. Nipples can be screwed out and replaced with lower flow ones.

Please speak to our friendly sales team on 01258 818239 if you are unsure.

*Nipple drinkers
reduce antibiotic
usage*

QUILL DRINKER

- The original and best triangle nipple drinker is sold worldwide
- Suitable for birds of all ages, including chicks straight out of the hatcher
- Eliminates cross contamination of disease through drinking water to keep your birds healthy and your profits high
- Keeps bedding drier than open water drinkers and oscillating nipples will keep birds interested, increasing hydration and reducing feather pecking through boredom
- An easy, low maintenance and reliable system made from strong and durable plastic
- The Quill Valve, based on the Rainbow Valve, keeps water at a constant level and has an automatic safety shut-off which turns off the supply should the drinker fall on the floor
- The slim triangular design prevents birds from perching and allows easy observation through your housing unit
- Can be hung from the supplied hanging cord or suspended using the Quill Tripod (sold separately - see next page)
- Available in green to prevent algae during outdoor use, and natural for easy water level monitoring during indoor use
- Choose from three different nipples depending on your game birds
- Each drinker comes with a Quill Valve, Hanging Cord and set of 10 nipples (fitted)
- Easier to move than nipple lines

"These nipple tank drinkers are fantastic and the best new product on the market for years. I'm using them in my release pens, connected to the mains with a ballcock and they are very easy to use. I've not used nipple drinkers before but the birds are getting plenty of water, they aren't stood around waiting and the ground is very dry underneath, there's no wastage." *Robert, Encombe Estates*

QUILL OUTDOOR 40L TANK DRINKER

- 8 nipples for up to 150 birds
- Ideal drinker for back gardens, small-holdings and release pens
- Prevents birds from wandering to find water sources
- Can be fitted with ballcock and valve for connecting to mains supply
- Suitable for adding organic acids or medication
- Fitted with 360 degree nipples and stand
- Green to prevent algae
- Comes with a galvanised stand

Water Tanks, Fittings & Pipe

Our 8mm water pipe is specially manufactured for us in the UK from virgin plastic and superior to black water pipe.

We manufacture water tanks on-site here at Quill Productions and choose high quality fittings and pipe.

Fittings are made by Plasson who are renowned for reliability and longevity.

QUILL WATER TANKS

- Designed and manufactured by Quill Productions
- Made from high quality, UV stabilised HDPE
- Baffling reduces the movement of water in the tank during transport
- Hard wearing, weatherproof and long lasting
- Suitable for a wide range of uses.

TANK LID

- Use in tanks to prevent debris

------------	---------	-----------

"Without a doubt, the Stenner is the best additive pump currently on the market. It is the only one that really works for game birds."

STENNER FP DOSING PUMP

- Considered the most reliable and cost effective dosing system on the market
- Doses precise quantities of product in response to discreet pulses from a pulse water meter (**sold separately - see opposite page**)
- Brushless motor and quick change pump head
- 3 pinch point pump means the Stenner is far more accurate than water piston pumps and medigators
- Used with water meter which is cheaper and more reliable than a costly flow sensor
- Will dose organic acids straight from the can
- Easy access for tube replacement
- Choose from 20m or 25mm fittings
- 24VDC or 240V with pulse outlet reed switch
- Self priming

No need to mix stock solutions

Works on very low water flows

The best method for dosing release pens

"It's so easy - simply set it and forget it."

STPUMP	£381.60	(£457.92)
--------	---------	-----------

"The best bit is that you don't need to mix up a stock solution, you can simply put the pipe straight in the bottle of medication."

INTRAHYDROCARE

- Kills bacteria, yeasts and fungi in the water
- Essential for good biosecurity and water hygiene
- More effective than chlorine
- Easily cleans, disinfects and purifies the complete drinking or irrigation system
- Use to remove biofilm from 8mm or MDPE water pipe
- Completely water soluble
- Does not alter the odour or flavour of water
- Dual action cleaning of water systems by removing biofilm and disinfection of water
- Solution is safe to be drunk by birds
- Very effective at low concentrations
- Adding medicines, vaccines and nutritional supplements creates a biofilm in water tanks and drinkers which is a breeding ground for bacteria so it is essential to follow with hydrocare
- Use for routine clean out of water systems and drinkers
- Use before and after vaccinations, medicines or nutritional supplements
- Removes biofilm from leaking drinkers and nipple lines
- Breaks down into oxygen and water - so environmentally friendly
- Powerful fizzing action removes biofilm
- Extensive EU registrations
- Hydrogen Peroxide stabilised with silver
- Safe for equipment and animals
- Non corrosive and ideal for cleaning waterlines, nipple lines and Quill Drinkers
- Safe to use whilst drinking or irrigation system is still in use.
- Vet approved

Cross section of pipe line before (right) and after (left) using Hydrocare

Would you want to drink water that contained this...?

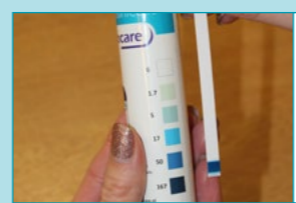

Free water tests available see page 37

Dilution Rates:

Birds present: 50-250mls per 1000 litres. 0.005% - 0.0025% (water can be drunk by birds at this dilution)
 Terminal Clean: 2-3% (dilution should not be consumed)

Brooders & Heaters

Infraconic heaters from French manufacturer Cerem are the Rolls Royce of heaters.

Game and SA heaters are popular and value for money heaters.

Infra red heaters are useful for dog kennels or for small broods of birds such as ducks.

CEREM INFRACONIC HEATERS

- Totally reliable high pressure heaters suitable for partridge and pheasants
- Easy to maintain and clean
- Knock out air filters
- Produces excellent infra-red radiant heat
- Highly effective foam filters
- Washable with compressed air or water
- Good quality thermostats
- Supplied with 2.5m gas pipe and two clips
- **Regulators sold separately**

Propane 300mbar
430 to 1450W
31 to 105g/h

CEREM 1500

- For approx. 400 - 600 birds

CERICM15G300 £160.50 (£192.60)

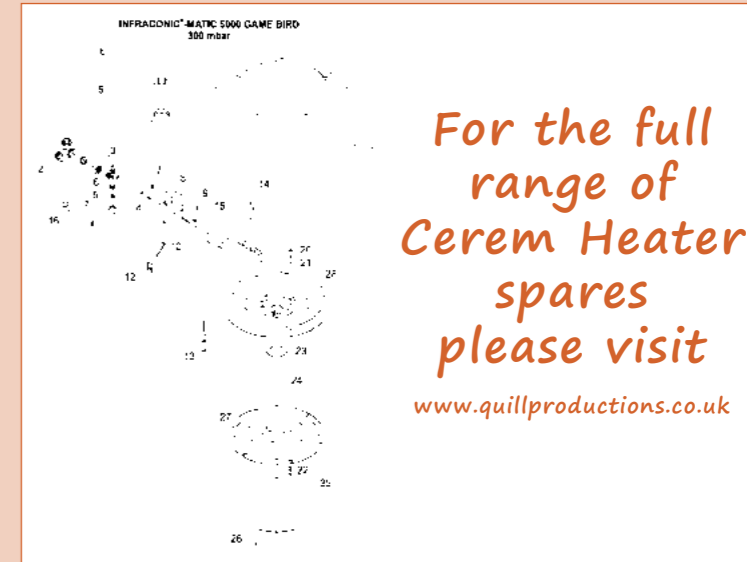

Propane 300 mbar
550 to 4800W
40 to 346g/h

CEREM 5000

- For approx. 600-1500 birds
- Dual Jet System

CERICM5G300 £214.50 (£257.40)

“Quill Boost has improved the health of my birds dramatically, already halving my vets bills and reducing mortality rates.”

QUILL BOOST TONIC

- The original and best game bird boost tonic
- Vet recommended - reduces antibiotic usage
- Contains Chelated Minerals, Organic Acids and Essential Amino Acids
- Reduces the pH of the water to 4.1 which inhibits bad bacteria growth in drinkers and pipelines
- Suppresses the growth of E. coli
- Reduces limescale build up in drinkers and pipelines
- Safe for all drinking systems
- Supports the birds' immune system
- Aids the digestive process
- Kills pathogens
- Improved weight gain and development
- To be used as a daily supplement or given at times of stress such as moving the birds.
- Quality, organic acids including lactic acid - No industrial by-product acids, commonly used in other similar products on the market
- Cost effective
- Vet approved

Dilution Rate: 1ml per litre

Costs as little as 1.5p to rear pheasants to 7 weeks
(based on 50,000 pheasants)

INTQBST1	1 LITRE	£15.10	(£18.12)
INTQBST5	5 LITRE	£61.90	(£74.28)
INTQBST20	20 LITRE	£206.50	(£247.80)

“Over the Moon with the Boost! Trialled it on 3 pens out of 4. The pen that didn't have the boost in their drinking water went down with Hexamita, and started vent pecking. The other three pens have noticeably long fuller tails good weight birds and doing great! And no drugs needed. I would recommend Quill Boost to anyone now.”

NEW

SYRINGE

- Individually wrapped, sterile syringe without needle.
- 5ml total volume
- Ideal for measuring small volumes, 1ml for Quill Boost!

TERS5ML £0.55 (€0.66)

NEW

OAKTON ECO TESTER PH METER

- pH Meter to test acidity of the water
- Easy to use
- Accurate to within 0.1pH
- Clear and easy to ready display unit
- Knowing the acidity/pH is essential as different water requires different dosing to achieve optimum pH for the birds

CP3542301 £86.85 (€104.22)

QUILL VIT EXTRA

- A liquid multi vitamin trace element product providing essential Amino Acids
- Gives chicks a great start after hatching.
- Speeds up and supports growth
- Helps with recovery after medications or antibiotics or during feed change
- Antioxidants reduce cell damage during stressful times
- Suitable for all bird ages and in all drinker systems
- Extremely cost effective dilution.

DILUTION RATE:
1ml per litre

QUILL VETS

NEW!

In collaboration with the specialist poultry and game bird vets of Mount Vets, we are now able to offer independent, veterinary services. Quill Productions is now a registered veterinary practice with a post mortem room, laboratory, consultation rooms and dispensary, so we can offer on site vet services. We can also offer field services, such as annual visits; providing a comprehensive review of your birds' health, production and disease, enabling a 12 month health plan to be formulated. Emergency health visits can also be provided 24/7.

SERVICES INCLUDE:

- HEALTH PLANNING
- ANNUAL VISITS
- EMERGENCY VISITS
- HATCHERY ADVICE
- DISEASE CONTROL & PREVENTION
- POST MORTEMS
- VACCINATION PROGRAMMES
- LABORATORY TESTING
- DISPENSING SERVICES
- WORM EGG COUNTS

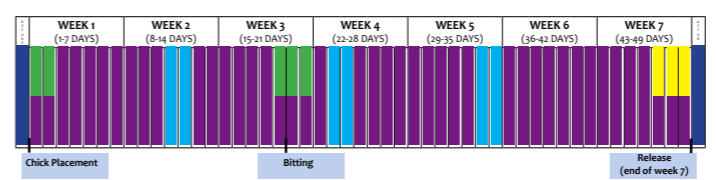

Appointments available Monday - Friday 2pm - 5pm
Call - 01258 818239

Emergency services available.

Quill Services

Example Program for Supporting Healthy Game Bird Development in the Rearing Field (Pheasants)

At Quill we understand just how valuable your birds are to your business. To keep them healthy, maybe you add an acid to your water supply to keep down bacteria? Well, what if you had a product that could do that BUT ALSO, boost your birds immune system, and drastically reduce the need for expensive antibiotics in the future? This program shows you, step by step, how simple it can be to get amazing results.

FREE WATER PROGRAMMES

Used by game farmers big and small, and recommended by vets, our FREE water programmes provide a day to day guide on which supplement, organic acid or water sanitiser you should use from day old chicks to release/ sale at 7 week old poults. Following the programme costs only 3p per bird, based on 1,000 pheasants for the 7 week period and results in strong, healthy birds and low mortality.

FREE WATER TESTING

We can test your water samples for bacteria levels. Ask us to include a FREE water sample kit with your next order. We can also provide advice as to what steps need to be taken to reduce the levels of bacteria.

See page 43 for a Cleaning Trolley

Cleaners

High quality, value for money cleaners, used and chosen by us

A thorough clean is required to remove dirt and grease before disinfection takes place to ensure effective biosecurity.

We have written cleaning and disinfection protocols for some of the biggest farms and hatcheries in the country.

Contact us today for your FREE vet approved protocol.

BEST SELLER

INTRAPOWER FOAM

- Alkaline
- Penetrates deeply
- Effective foaming cleaner that dissolves all types of grease, dirt and protein
- Reduces number of pathogenic bacteria - prevents spread of diseases
- Strong adhesion to all surfaces - can be used on concrete, stone, stainless steel and plastic
- Effective and cost effective dilution rates.
- Sticks to surfaces for 5-10 minutes without running
- Works in 10-20 minutes
- Can be applied via a pressure washer or a foaming lance.

Dilution Rate: 3-5%

INTPFOAM	22KG	£40.25	(£48.30)
INTPFOAM220	220KG	£356.40	(£427.68)

TARGET POWERGEL

- Alkaline, 15% sodium hydroxide
- Effective and fast foaming cleaner to enhance biosecurity
- Dissolves all grease and dirt
- Sticky and produces a thick foam
- Extra long contact time for excellent organic soil penetration
- Labour and water saving
- Ideal for all types of pressure washers
- Can be used with or without a foam lance
- Not for use on aluminium
- 200 litre drum available to order.

Dilution Rate: 2-5%

EVA086KEV	25 LITRE	£53.15	(£63.78)

AFCR £34.25 (€41.10)

Bitting is a stressful time. Use **Quill Boost** to support your poult's immune system and **Quill Lyte Plus** to help with rehydration. We also recommend offering open water drinkers for 24-48 hours after bitting whilst the birds are getting used to the bits. Water must be acidified with Quill Boost p35 to keep the pH down to kill bacteria and prevent the spread of disease.

EVA038KEV £54.10 (€64.92)

Pest Control

For insects, rodents, corvids, foxes or small mammals

For England, from 1 January 2019, DOC 150 traps may now be used in run-through tunnels (made to certain specifications) to catch stoat, weasel and rat (but not grey squirrel). For Wales, Scotland and Northern Ireland, equivalent legislation will come into force by 31 March 2019.

Our tunnel has been made in accordance with these specifications.

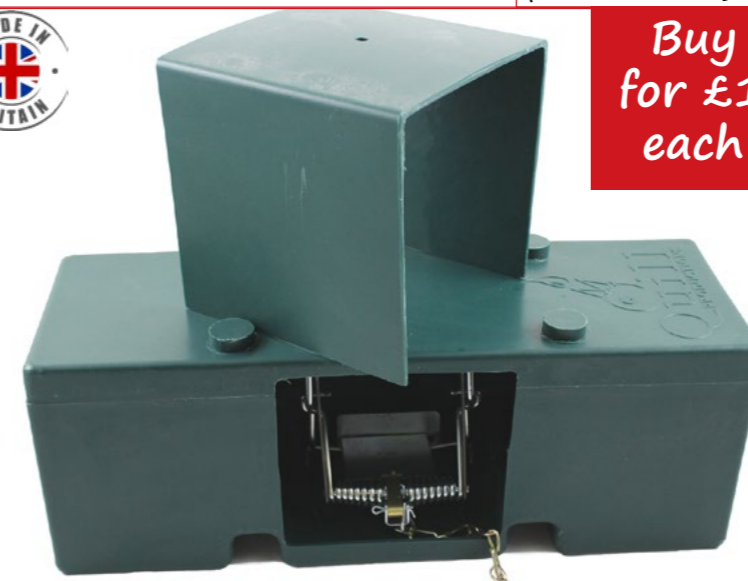

1 April 2020, Fenn traps will no longer be legal for stoats. It will still be legal for rats and squirrels.

QUILL VERMIN TRAP BOX

- Unique side loading design making it easier and safer to set
- Offers rapid and humane dispatch via Mk 4 Fenn Spring Trap (sold separately)
- Cost effective, long lasting, re-usable, no costly poisons
- Made from strong, durable and weatherproof plastic
- Dark and attractive to vermin like rats and squirrels
- 60mm diameter entrance holes deter larger animals being caught in trap
- Plastic impregnated with aniseed oil
- Can be surrounded by soil for extra camouflage
- Easily washed, stored and transported
- Fully compatible with the Quill Feeder Stand.

“Use with the Quill Feeder Stand and a Mk4 Fenn Trap for ideal rat and squirrel control in woods, game strips and release pens to protect your feeders and feed”

NEW!

QUILL DOC TRAP BOX & TRAP

- Double entry trap box with trap included
- Ideal for trapping rats, stoats and weasels
- Designed in conjunction with industry bodies
- Made from strong and durable plastic which ensures the trap is long-lasting
- Robust box protects metal traps from the environment. Ideal for peaty soils that usually dissolve metal traps
- **Plastic is impregnated with fish meal to improve catching rate**
- The trap cannot be jumped and internal baffles position the vermin directly over the trap to ensure a clean kill
- Trap is secured to the base of the box to assist with operator safety
- Lid secured with an Allen Key, not supplied, for health and safety - prevents general public from accessing the trap
- For squirrels, the user must block up one entrance hole so it is only a single entry trap.
- Quantity discount available - please enquire

QUILL HOOF-SPRAY SYSTEM

- An award winning system to tackle Digital Dermatitis in the milking parlour
- The renowned Ambic® JetStream™ has been carefully adapted to compensate for the thickness of the Intra Hoof-fit Spray Liquid
- Fast & easy application in less than 3 seconds per hoof
- No need to lift the feet
- Easy to install & maintain
- Lever operated spray gun with adjustable nozzle is shaped for easy, targeted application
- Safe, simple, reliable & fully vacuum operated
- Can dramatically reduce the levels of harmful, lameness-causing digital dermatitis bacteria on the farm
- More effective & economical than footbathing alone
- Reductions in lameness can lead to increased milk production and improved calving index
- Available as either a drop coil OR drag line kit, to suit different parlours

“Since using the Quill Hoof Spray System, we have seen outstanding results - our cases of DD have dropped dramatically - in fact it has almost gone completely. The system is very simple and fast to use; it only takes a couple of seconds to spray the hooves”

James Yeatman - Dairy Farmer

QADROP	£605.50	(£726.60)
QADRAG	£621.70	(£746.04)

TRADITIONAL COVER MIX

A traditional mixture of species specially selected for their feed and cover qualities. This mixture is designed for a full season of cover that will provide holding, feed and cover for all game birds. The sunflowers add an attractive splash of colour. Due to the variance in seed size broadcast to achieve optimum establishment.

Please Note: prices are based on certain size orders.

CROP	DESCRIPTION	PACK SIZE	AVERAGE SOWING RATE	PRICE PER KG
BOOST MIX	Fast growing, quick to establish, frost hardy crops. Can be sown late in summer / early autumn as a rescue crop.	5KG	6-10kg/ha	£13.25
PARTRIDGE MIX	A hardy mixture; thrives on colder, poorer soil. Open canopy that attracts and holds partridge. Useful as a break crop from Kale.	25KG	62kg/ha	£1.96
GENERAL PURPOSE REARING PEN MIX	Establishes rapidly. A perennial, year round crop. A mix including ryegrass, fescue, timothy, birdsfoot, trefoil and white clover.	15KG	32kg/ha	£4.60
ZOOM BRASSICA MIX	Very vigorous and quick growing. Ideal to patch failed crops. Good disease and bolting resistance.	5KG	6-10kg/ha	£5.98
WHITE MUSTARD	Inexpensive, highly versatile when sown alone or in companion. Ideal for early cover. Does not tolerate frost but woody stems then provide shelter.	10KG 25KG	12kg/ha	£3.15 £2.90
GOLDENEYE KALE (TREATED)	Giant type kale. Optimum combination of height and leaf production, especially for game cover. Club root tolerant, Cruiser SB Beetle treated.	1KG	3-7.5kg/ha	£17.50
AMBUSH MILLET MIX	Mixture of white, red, Japanese Reed Millet. Provides cover and produces enough seeds to hold birds. Ideal for windproof belt around maize of flushing point at end of maize.	10KG	12kg/ha	£3.38 plus vat
WHITE MILLET	Provides warmth, shelter and feed. Particularly attractive to partridges. Sunshine loving plant, not frost hardy. Performs well sown with maize.	10KG	12kg/ha	£2.39 plus vat
DWARF SORGHUM (TREATED)	Short, sturdy, broad leaved stem. Substantial seed head.	10KG	20kg/ha	£3.37
RAPID FIRE MAIZE	Very good standing ability, early vigour and low cob carriage. Mesuro treated.	50k seeds	45K seeds/acre	£43.15
MAIZE BLEND	A mixture of early, mid and late varieties providing cover and cobs through the season. Mesuro treated.	50k seeds	45K seeds/acre	£42.15

Feed

As an independent game feed supplier, we obtain quotes from four different suppliers. Buy with us to take advantage of our buying power. Did you know that buying through us counts towards our loyalty scheme?

We are the sole agents for Crown Feeds. Crown have extensive knowledge and experience and our MD, Graham, tried their feeds on his own game farm and shoot last year and was impressed by the quality, price and service.

Call on 01258 818239 for a bespoke quote.

Maize

For the Autumn months we can supply maize either with or without aniseed.
