

## COCCIDIOSIS & CRYPTOSPORIDIUM REDUCTION IN CALVES

- 1** Remove livestock, portable materials & organic matter from pen.
- 2** Apply **Target™ Powergel** at 1:14 through a foam cleaner or low pressure washer (less than 70 bar). Allow a 1 hour contact time before rinsing off thoroughly with clean water and allow to air dry.
- 3** Spray all areas thoroughly with a solution of **GPC8™** at 1:35, at a rate of 300ml per square metre. For best results apply as a foam. Allow to air dry.
