

Quill Drinker

Water Flow Rates

Nipple Size / Water Level	10cm	20cm
180 Nipple	50ml	81ml
360 Nipple	45 - 50ml	70 - 72ml
360 Nipple (High Flow)	36 - 56ml	56 - 81ml

The diagram shows the water level and when cross-referenced with the table, it allows you to decide the right nipple to go with your Quill Drinker.

All flow rates are measured at 20°C and are per minute.
