QUILL TRAIL FEEDER & TRAILER

Quill Trail Feeder

Quill Trail Feeder Trailer

Speed controller

The brushes in the Quill Trail Feeder are controlled by a 12v DC electric motor and can be sped up or slowed down to alter the distribution of feed.

Quill Trail Feeder & Trailer

The Quill Trail Feeder has a removable lid for easy refilling

Brushes dispense neat rows of feed without wastage

Can also be used on the back of an RTV or pick up

R-clip holds plate in place when closed to prevent pests getting in
