

GOJO® HAND MEDIC®

Professional Skin Conditioner

Moisturises and conditions skin.

Healthy Skin

Damaged Skin

Healthy skin is the basis of prevention.

Healthy, well-conditioned skin retains more moisture and is less likely to absorb and react to incidental exposure to irritants. Use GOJO HAND MEDIC Professional Skin Conditioner before work, after handwashing and at the end of the working day to help maintain the skin. Good skin condition is the body's first line of defense against harmful substances and moisture loss.

Help maintain skin's natural moisture level.

Specifically formulated for professional technicians for use in their work environment.

- Helps to maintain the skin's natural protective barrier
- Quickly absorbs, with no greasy after feel
- Silicone and fragrance free
- Dermatologist tested
- Use before work, after handwashing and at the end of the working day
