4 Design layout preferences:

The examples shown at left are all-over repeat patterns. This type of layout can be done with one element (sauce logo), or several elements (sauce logo, snowflakes, sauce words, etc). The placement of the elements will change from item to item depending on how they are cut and sewn.

These are all examples of placement specific design layouts. Each item will have the same layout and elements of the design will appear in the same place on each product.
