

53' Corrugated container with 6-42-6 sides

The New Tooling of our 53' container is complete. These models feature IBC connecting pins AND our Magnetic connection system (magnets on bottom; metal plates on top) and are decorated with detailed prototype printing.

JTC's first 53' container has been tooled with two different fronts, and Five different door ends. This will allow for many variations and paint schemes to match prototype pictures, including many Canadian based companies. Liveries may include: APL, CSX (multiple schemes), CANADIAN TIRE, CP, PACER, TOTE, HUB GROUP, YANKE, CLARKE, CN, EMP (Pacer & Hub Group patch), STAX, SEA STAR, CROWLEY, SWIFT, UMAX (CSX, STAX patch units), + OTHERS.

First Release Batch expected January 2019. \$33.95 per 2-pack

535002 CN Intermodal

535003 HUB GROUP

Multiple road numbers in future releases
