

Real-time online, instructor-led. Watch, listen and interact online with other attendees. These short sessions held in a single day or over a few days allow you to learn without taking time out of your busy schedule. Download course materials, including presentations, tools, and workbooks. aeeprograms.com/online

Fundamentals of Compressed Air Systems™

Fundamentals of Compressed Air Systems is designed to teach facility engineers, operators, and maintenance staff how they can achieve 15-25 percent cost savings through proper operation and controls, system maintenance, and appropriate uses of compressed air. The webinar's content adheres to the Compressed Air Challenge (CAC) principles of product-neutrality and a focus on the systems approach to managing compressed air.

Schedule*
4-Days
2 Hours per Day
1 - 3 pm

Credits
0.8 CEU
