NEW MOLD  
2022

58405 Building block car  
# 56061 - (Car does not include building blocks)

III / 2022

**We also expect a new production run of our USATC HO-Scale Whitcomb Models and more NCTD Sprinters!**

**The model:**

The imaginations of young (and not-so-young!) model railroaders should run wild at the thought of a train car that can be built and rebuilt any way they want it with the new PIKO building block car. Aspiring model railroaders can use their favorite building blocks; the possibilities are endless! Whether they are by themselves or with family and friends, younger modelers will always be creating new works of art on the building block car. The car can be coupled to any HO locomotive. Model railroading with PIKO has never been more fun!

52096-52098 NCTD Sprinter
